ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On May 12, 2014, Rexford Industrial Realty, Inc. (“Rexford Industrial”) issued a press release announcing its earnings for the quarter ended March 31, 2014 and distributed certain supplemental financial information. On May 12, 2014, Rexford Industrial also posted the supplemental information on its website located at www.rexfordindustrial.com. Copies of the press release and supplemental information are furnished herewith as Exhibits 99.1 and 99.2, respectively.

The information included in this Current Report on Form 8-K under this Item 2.02 (including Exhibits 99.1 and 99.2 hereto) are being “furnished” and shall not be deemed to be “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of the Exchange Act, nor shall it be incorporated by reference into a filing under the Securities Act of 1933, as amended (the “Securities Act”), or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

ITEM 7.01 REGULATION FD DISCLOSURE

As discussed in Item 2.02 above, Rexford Industrial issued a press release announcing its earnings for the quarter ended March 31, 2014 and distributed certain supplemental information. On May 12, 2014, Rexford Industrial also posted the supplemental information on its website located at www.rexfordindustrial.com.

The information included in this Current Report on Form 8-K under this Item 7.01 (including Exhibit 99.1 and 99.2 hereto) is being “furnished” and shall not be deemed to be “filed” for the purposes of the Exchange Act, or otherwise subject to the liabilities of the Exchange Act, nor shall it be incorporated by reference into a filing under the Securities Act or the Exchange Act, except as shall be expressly set forth by specific reference in such filing. The information included in this Current Report on Form 8-K under this Item 7.01 (including Exhibit 99.1 and 99.2 hereto) will not be deemed an admission as to the materiality of any information required to be disclosed solely to satisfy the requirements of Regulation FD.

ITEM 9.01 FINANCIAL STATEMENTS AND EXHIBITS

(d) Exhibits.

REXFORD INDUSTRIAL ANNOUNCES FIRST QUARTER 2014 FINANCIAL RESULTS

- Reports FFO of \$0.19 Per Diluted Share –
- Leases More Than 659,000 Square Feet –
- Portfolio Occupancy Increases to 90.2% –
- Completes Acquisitions of \$54.0 Million Since the Start of 2014 –

Los Angeles, California – May 12, 2014 – Rexford Industrial Realty, Inc. (the “Company” or “Rexford Industrial”) (NYSE: REXR), a real estate investment trust (“REIT”) that specializes in acquiring, owning and operating industrial properties located in Southern California infill markets, today announced financial results for the first quarter of 2014.

First Quarter 2014 Financial and Operational Highlights:

- Reported Funds From Operations (FFO) of \$0.19 per share for the quarter ended March 31, 2014.
- Same Property Portfolio occupancy increased 140 basis points compared to the first quarter of 2013 to 89.1%.
- Same Property Portfolio NOI growth decreased 1.1% in the first quarter of 2014 compared to the first quarter of 2013, driven by a 3.4% increase in Same Property Portfolio revenue, offset by a 15.0% increase in Same Property Portfolio expenses. Same Property Portfolio Cash NOI increased 1.0% compared to the first quarter 2013.
- Signed new and renewal leases totaling approximately 659,000 square feet, resulting in approximately 40,800 square feet of positive net absorption and increased renewal spreads of 11.5% on a GAAP basis and 3.6% on a cash basis during the first quarter of 2014.
- From January 2014 to April 2014, the Company acquired six industrial properties totaling approximately 571,000 square feet, for an aggregate cost of \$54.0 million.

“Our first quarter 2014 financial results reflect a continuation of the strong operating and leasing trends we have experienced since we completed our initial public offering last year,” stated Michael Frankel and Howard Schwimmer, Rexford Industrial’s Co-Chief Executive Officers. “We executed over 650,000 square feet of new and renewal leases, and captured another quarter of positive net absorption with positive releasing spreads. In addition, we acquired 6 industrial properties for a total of \$54 million since the start of 2014. In the nine months since our initial public offering, we’ve acquired 1.5 million square feet of industrial property, representing a 25% expansion of our portfolio.”

Financial Results:

Financial results for periods ending on or prior to June 30, 2013 reflect the results of Rexford Industrial's predecessor entities.

The Company reported net income of \$1.3 million (\$1.4 million before non-controlling interests), or \$0.05 per diluted share of common stock, for the three months ended March 31, 2014. In comparison, Rexford Industrial's predecessor entities reported net income of \$0.3 million (\$2.1 million before non-controlling interests) for the three months ended March 31, 2013.

The Company reported Funds From Operations (FFO) of \$4.9 million, or \$0.19 per diluted share of common stock, for the three months ended March 31, 2014.

Operating Results:

For the three months ended March 31, 2014, the Company's Same Property Portfolio NOI decreased 1.1% compared to the first quarter of 2013, driven by a 3.4% increase in Same Property Portfolio revenue, offset by a 15.0% increase in Same Property Portfolio expenses. Same Property Portfolio Cash NOI increased 1.0% compared to the first quarter 2013.

In the first quarter, the Company signed 94 new and renewal leases in its consolidated portfolio, totaling approximately 659,100 square feet. Average rental rates on comparable new and renewal leases were up 11.5% on a GAAP basis, and up 3.6% on a cash basis. The Company signed 41 new leases for approximately 307,100 square feet, with GAAP rents up 15.1%, compared to the prior in place leases. The Company signed 53 renewal leases for approximately 352,000 square feet, with GAAP rents up 9.4% compared to the prior in place leases. For the 41 new leases, cash rents were up 3.2%, and for the 53 renewal leases, cash rents were up 3.9%, compared to the ending cash rents for the prior leases.

The Company has included in a supplemental information package the results and operating statistics that reflect the activities of the Company for the three months ended March 31, 2014. See below for information regarding the supplemental information package.

Transaction Activity:

From January 2014 to April 2014, the Company acquired six properties totaling approximately 571,000 square feet for an aggregate cost of \$54.0 million, as detailed below.

In January, the Company acquired Rosecrans, a 72,000 square foot industrial building located in Paramount, California, for \$5.0 million, or \$69.01 per square foot. The seller is consolidating into half of the building under a five year lease-back, enabling the Company to execute its value-add improvement and leasing plan for the remainder of the property.

In January, the Company acquired Oxnard Street, located in Van Nuys, California, for \$8.9 million, or \$113.78 per square foot. The property consists of a six-building multi-tenant business park totaling 78,000 square feet. The buildings were 98% occupied as of March 31, 2014, and the Company plans to upgrade the property through overall aesthetic improvements and operational enhancements to facilitate accelerated rent growth.

In February, the Company acquired Ontario Airport Business Park, an industrial property located in Ontario, California, for \$8.6 million, or \$75.26 per square foot. The project consists of a five-building multi-tenant business park totaling 113,612 square feet and was 95.4% occupied as of March 31, 2014.

In February, the Company acquired an 88,330 square foot, six-building industrial complex located in Los Angeles, California, for \$6.6 million, or \$74.72 per square foot. The complex is located within the South Bay submarket, and was 98.0% occupied as of March 31, 2014, at substantially below market rents.

In March, the Company acquired Frampton Avenue, a 47,903 square foot industrial building, for \$3.9 million, or \$82.04 per square foot. The Frampton industrial building is located in Torrance, California, within the South Bay submarket, and as of March 31, 2014, was 100% leased, long-term.

Subsequent to the end of the first quarter, in April the Company acquired Saturn Way, a 170,865 square foot industrial building, for \$21.1 million, or \$123.49 per square foot. The Saturn Way industrial building is located in Seal Beach, within the Orange County West submarket, and was 100% leased, long-term, at the time of the acquisition.

In the first quarter of 2014, the Company also sold two properties for \$14.5 million. In January, Kaiser, a 124,997 square foot industrial property in San Diego, California, sold for \$10.1 million. Proceeds from the sale of Kaiser were reinvested into the Ontario Airport Business Park and 1500-1510 W. 228th Street acquisitions in a tax-deferred 1031 exchange. In March, the Company sold a 63,305 square foot office building in Simi Valley for \$4.4 million. The office building had been acquired as part of an acquisition of a 136,065 square foot industrial property that occurred in December 2013, with the intention of selling the office component.

Earnings Release, Investor Conference Webcast and Conference Call:

The Company will host a webcast and conference call on Monday, May 12, 2014 at 5:00 p.m. Eastern time to review first quarter results and discuss recent events. The live webcast will be available on the Company's investor relations website at www.ir.rexfordindustrial.com. To participate in the call, please dial 877-407-0789 (domestic) or 201-689-8562 (international). A replay of the conference call will be available through May 26, 2014, by dialing 877-870-5176 (domestic) or 858-384-5517 (international) and entering the pass code 13580674.

About Rexford Industrial:

Rexford Industrial is a real estate investment trust focused on owning and operating industrial properties in Southern California in-fill markets. The Company owns interests in 72 properties with approximately 7.9 million rentable square feet and manages an additional 20 properties with approximately 1.2 million rentable square feet.

For additional information, visit www.rexfordindustrial.com.

Forward Looking Statements:

This press release may contain forward-looking statements within the meaning of the federal securities laws, which are based on current expectations, forecasts and assumptions that involve risks and uncertainties that could cause actual outcomes and results to differ materially. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as “may,” “will,” “should,” “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” or “potential” or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. While forward-looking statements reflect the Company’s good faith beliefs, assumptions and expectations, they are not guarantees of future performance. For a further discussion of these and other factors that could cause the Company’s future results to differ materially from any forward-looking statements, see the reports and other filings by the Company with the U.S. Securities and Exchange Commission, including the Company’s Annual Report on Form 10-K for the year ended December 31, 2013. The Company disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

Definitions / Discussion of Non-GAAP Financial Measures:

Funds from Operations (FFO): We calculate FFO before non-controlling interest in accordance with the standards established by the National Association of Real Estate Investment Trusts (“NAREIT”). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs’ FFO. FFO should not be used as a measure of our liquidity, and is not indicative of funds available for our cash needs, including our ability to pay dividends. A reconciliation of FFO before noncontrolling interest to net income, the nearest GAAP equivalent, is set forth below.

NOI: Includes the revenue and expense directly attributable to our real estate properties calculated in accordance with GAAP. Calculated as total revenue from real estate operations including i) rental revenues ii) tenant reimbursements, and iii) other income less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property

dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of NOI for our Same Property Portfolio to net income for our Same Property Portfolio, is set forth below.

Cash NOI: Cash basis NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI i) fair value lease revenue and ii) straight-line rent adjustment. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of Cash NOI for our Same Property Portfolio to net income for our Same Property Portfolio, is set forth below.

Same Property Portfolio: Determined independently for each period presented. Comparable properties must have been owned for the entire current and prior periods presented. The Company's computation of same property performance may not be comparable to other real estate companies.

Forward Looking Statements: This supplemental package contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We caution investors that any forward-looking statements presented herein are based on management's beliefs and assumptions and information currently available to management. Such statements are subject to risks, uncertainties and assumptions and may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. These risks and uncertainties include, without limitation: general risks affecting the real estate industry (including, without limitation, the market value of our properties, the inability to enter into or renew leases at favorable rates, dependence on tenants' financial condition, and competition from other developers, owners and operators of real estate); risks associated with the disruption of credit markets or a global economic slowdown; risks associated with the potential loss of key personnel (most importantly, members of senior management); risks associated with our failure to maintain our status as a REIT under the Internal Revenue Code of 1986, as amended; possible adverse changes in tax and environmental laws; and potential liability for uninsured losses and environmental contamination.

For a further discussion of these and other factors that could cause our future results to differ materially from any forward-looking statements, see Item 1A. Risk Factors in our 2013 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission ("SEC") on March 20, 2014. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

Pro forma effect of assets sold subsequent to end of the quarter ⁽⁴⁾	(28)	(226)	(157)
Adjusted EBITDA	\$ 7,181	\$ 6,497	\$ 4,605

⁽¹⁾ For a definition and discussion of non-GAAP financial measures, see the definitions section beginning on page 25 of this report.

⁽²⁾ Non-recurring legal fees relate to Accommodation and Litigation.

⁽³⁾ Represents the estimated impact of Q1'14 acquisitions as if they had been acquired on January 1, 2014, Q4'13 acquisitions as if they had been acquired on October 1, 2013, and Q3'13 acquisitions as if they had been acquired on July 24, 2013. We have made a number of assumptions in calculating such estimates and there can be no assurance that we would have generated the projected levels of EBITDA had we owned the acquired entities as of the beginning of each period.

⁽⁴⁾ Represents the estimated impact of Kaiser, which was sold on January 29, 2014, and Madera, which was sold on March 13, 2014, as if they had been disposed of as of the beginning of each period presented.

Capital Expenditure Summary

(unaudited results, data represents consolidated portfolio only on a pro rata basis)

Quarter Ended March 31, 2014:			
	Amount	SF ⁽¹⁾	PSF
Tenant Improvements:			
New Leases - 1st Generation	\$ 9,000	7,032	\$ 1.28
New Leases - 2nd Generation	\$ 43,000	68,830	\$ 0.62
Renewals	\$ 44,000	190,115	\$ 0.23
Leasing Commissions:			
New Leases - 1st Generation	\$ 41,000	107,204	\$ 0.38
New Leases - 2nd Generation	\$ 130,000	162,887	\$ 0.80
Renewals	\$ 59,000	49,015	\$ 1.20
Total Recurring Capex:			
Recurring Capex	\$ 280,000	1,256,080	\$ 0.22
Recurring Capex % NOI	3.1%		
Recurring Capex % Operating Revenue	2.1%		
Nonrecurring Capex	\$ 557,000	1,713,319	\$ 0.33

⁽¹⁾ For tenant improvements and leasing commissions, reflects the aggregate square footage of the leases in which we incurred such costs, excluding new/renewal leases in which there were no tenant improvements and/or leasing commissions. For total recurring capex and nonrecurring capex, reflects the aggregate square footage of the properties in which we incurred such capital expenditures.

Mar-14	Madera - Office	2900 N. Madera Road	LA - San Fern. Valley	63,305	\$4.4	Non core business

Definitions / Discussion of Non-GAAP Financial Measures

Adjusted Funds from Operations (AFFO): We calculate adjusted funds from operations, or AFFO, by adding to or subtracting from FFO (i) non-cash operating revenues and expenses, (ii) capitalized operating expenditures such as leasing payroll, (iii) recurring capital expenditures required to maintain and re-tenant our properties, (iv) regular principal payments required to service our debt, and (v) 2nd generation tenant improvements and leasing commissions. Management uses AFFO as a supplemental performance measure because it provides a performance measure that, when compared year over year, captures trends in portfolio operating results. We also believe that, as a widely recognized measure of the performance of REITs, AFFO will be used by investors as a basis to assess our performance in comparison to other REITs.

Annualized Base Rent: Calculated for each lease as the latest monthly contracted base rent per the terms of such lease multiplied by 12. Excludes billboard and antenna revenue and rent abatements.

Capital Expenditures, Non-recurring: Expenditures made in respect of a property for improvement to the appearance of such property or any other major upgrade or renovation of such property, and further includes capital expenditures for seismic upgrades, or capital expenditures for deferred maintenance existing at the time such property was acquired.

Capital Expenditures, Recurring: Expenditures made in respect of a property for maintenance of such property and replacement of items due to ordinary wear and tear including, but not limited to, expenditures made for maintenance or replacement of parking lot, roofing materials, mechanical systems, HVAC systems and other structural systems. Recurring capital expenditures shall not include any of the following: (a) improvements to the appearance of such property or any other major upgrade or renovation of such property not necessary for proper maintenance or marketability of such property; (b) capital expenditures for seismic upgrades; or (c) capital expenditures for deferred maintenance for such property existing at the time such property was acquired.

Capital Expenditures, First Generation: Capital expenditures for newly acquired space, newly developed or redeveloped space, or change in use.

Cash NOI: Cash basis NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI (i) fair value lease revenue and (ii) straight-line rent adjustment. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

EBITDA and Adjusted EBITDA: We believe that EBITDA is helpful to investors as a supplemental measure of our operating performance as a real estate company because it is a direct measure of the actual operating results of our industrial properties. We also use this measure in ratios to compare our performance to that of our industry peers. In addition, we believe EBITDA is frequently used by securities analysts, investors and other interested parties in the evaluation of Equity REITs. However, because EBITDA is calculated before recurring cash charges including interest expense and income taxes, and is not adjusted for capital expenditures or other recurring cash requirements of our business, its utility as a measure of our liquidity is limited. Accordingly, EBITDA should not be considered an alternative to cash flow from operating activities (as computed in accordance with GAAP) as a measure of our liquidity. EBITDA should not be considered as an alternative to net income or loss as an indicator of our operating performance. Other Equity REITs may calculate EBITDA differently than we do; accordingly, our EBITDA may not be comparable to such other Equity REITs' EBITDA. Adjusted EBITDA includes add backs of non-cash stock based compensation expense, loss on extinguishment of debt, non-recurring legal fees and the pro-forma effects of acquisitions and assets classified as held for sale.

Investment to Date and Total: Reflects the total purchase price for a property plus additional or planned tangible investment subsequent to acquisition.

Funds from Operations (FFO): We calculate FFO before non-controlling interest in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity, and is not indicative of funds available for our cash needs, including our ability to pay dividends.

Definitions / Discussion of Non-GAAP Financial Measures

Properties Under Repositioning: Typically defined as properties where space is held vacant in order to implement capital improvements that improve the market rentability of that space. Considered completed once investment is fully or nearly fully deployed.

NOI: Includes the revenue and expense directly attributable to our real estate properties calculated in accordance with GAAP. Calculated as total revenue from real estate operations including i) rental revenues ii) tenant reimbursements, and iii) other income less property expenses and other property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

Rent Change - Cash: Compares the first month cash rent excluding any abatement on new leases to the last month rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude properties under repositioning, short-term leases, and space that has been vacant for over one year.

Rent Change - GAAP: Compares GAAP rent, which straightlines rental rate increases and abatement, on new leases to GAAP rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude properties under repositioning, short-term leases, and space that has been vacant for over one year.

Same Property Portfolio: Determined independently for each period presented. Comparable properties must have been owned for the entire current and prior periods presented. The company's computation of same property performance may not be comparable to other real estate companies.

Uncommenced Leases: Reflects signed leases that have not yet commenced as of the reporting date.
