REXFORD INDUSTRIAL ANNOUNCES THIRD QUARTER 2022 FINANCIAL RESULTS

Los Angeles, California - October 19, 2022 - Rexford Industrial Realty, Inc. (the "Company" or "Rexford Industrial") (NYSE: REXR), a real estate investment trust ("REIT") focused on creating value by investing in and operating industrial properties within Southern California infill markets, today announced financial and operating results for the third quarter of 2022.

Third Quarter 2022 Financial and Operational Highlights:

- Net income attributable to common stockholders of \$36.8 million, or \$0.21 per diluted share, as compared to \$31.5 million, or \$0.23 per diluted share, for the prior year quarter.
- Company share of Core FFO of \$86.1 million, an increase of 44.5% as compared to the prior year quarter.
- Company share of Core FFO per diluted share of \$0.50, an increase of 16.3% as compared to the prior year quarter.
- Consolidated Portfolio Net Operating Income (NOI) of \$123.0 million, an increase of 40.1% as compared to the prior year quarter.
- Same Property Portfolio NOI increased 7.2% and Same Property Portfolio Cash NOI increased 9.7% as compared to the prior year quarter.
- 98.6% Average Same Property Portfolio occupancy.
- Comparable rental rates on 1.7 million rentable square feet of new and renewal leases increased by 88.6% compared to prior rents on a GAAP basis and by 62.9% on a cash basis.
- Acquired 15 properties for an aggregate purchase price of \$977.5 million.
- Issued a total of 11.5 million shares of common stock for total net proceeds of \$697.0 million.
- Ended the quarter with a low-leverage balance sheet measured by a net debt-to-enterprise value ratio of 15.9%.
- Received credit rating upgrades to BBB+ (S&P) and Baa2 (Moody's).

"Our team produced exceptional third quarter results, a testament to our entrepreneurial and differentiated business model focused on value creation within the infill Southern California industrial market. Despite growing macroeconomic uncertainty, our infill Southern California industrial markets continue to demonstrate healthy tenant demand, operating at 99% occupancy amidst a persistent, virtually incurable supply-demand imbalance," stated Michael Frankel and Howard Schwimmer, Co-Chief Executive Officers of the Company. "In the third quarter Rexford Industrial grew Core FFO on a per share basis by 16% compared to the prior year, driven by Core FFO growth of 45%. Our team executed 1.7 million square feet of leasing activity at re-leasing spreads of 89% and 63%, on a GAAP and cash basis, respectively. We completed \$977 million of investments in the third quarter, plus an additional \$22 million of acquisitions completed subsequent to quarter end, bringing our year-to-date total investments to \$2.1 billion. The Company is well-positioned, with over \$250 million of additional investments under contract or accepted offer, which are subject to customary closing conditions, that are projected to deliver an aggregate stabilized unlevered yield on total investment of approximately 5.5%, well in-excess of current market yields. Our highly selective approach to capital allocation combined with our investment grade, fortress-like balance sheet, positions the Company to capitalize on accretive internal and external growth strategies that drive long-term value creation for our shareholders through all phases of the economic cycle."

Financial Results:

The Company reported net income attributable to common stockholders for the third quarter of \$36.8 million, or \$0.21 per diluted share, compared to \$31.5 million, or \$0.23 per diluted share, for the prior year quarter. The net income in the prior year quarter includes \$13.7 million of gains on sale of real estate. For the nine months ended September 30, 2022, net income attributable to common stockholders was \$116.8 million, or \$0.70 per diluted share, compared to \$77.0 million, or \$0.57 per diluted share for the prior year. The net income for the nine months ended September 30, 2022, includes \$8.5 million of gains on sale of real estate, as compared to \$27.3 million for the prior year.

The Company reported Core FFO for the third quarter of \$86.1 million, representing a 44.5% increase compared to \$59.6 million for the prior year quarter. The Company reported Core FFO of \$0.50 per diluted share, representing an increase of 16.3% compared to \$0.43 per diluted share for the prior year quarter. For the nine months ended September 30, 2022, Core FFO was \$244.4 million, representing a 52.1% increase compared to \$160.7 million for the prior year. For the nine months ended September 30, 2022, the Company reported Core FFO of \$1.47 per diluted share, representing an increase of 23.5% compared to \$1.19 per diluted share for the prior year.

In the third quarter, the Company's consolidated portfolio NOI and Cash NOI increased 40.1% and 36.6%, respectively, compared to the prior year quarter. For the nine months ended September 30, 2022, the Company's consolidated portfolio NOI and Cash NOI increased 41.1% and 37.6%, respectively, compared to the prior year.

In the third quarter, the Company's Same Property Portfolio NOI and Cash NOI increased 7.2% and 9.7%, respectively, compared to the prior year quarter. For the nine months ended September 30, 2022, the Company's Same Property Portfolio NOI and Cash NOI increased 7.4% and 10.5%, respectively compared to the prior year.

Operating Results:

Third quarter 2022 leasing activity demonstrates strong tenant demand fundamentals within Rexford Industrial's target Southern California infill markets:

	Q3-2022 Leasing Activity			
	# of Leases Executed	SF of Leasing	Releasing Spreads	
GAAP			Cash	
New Leases	53	702,882	70.5%	53.6%
Renewal Leases	77	994,945	95.3%	66.3%
Total Leases	130	1,697,827	88.6%	62.9%

As of September 30, 2022, the Company's Same Property Portfolio occupancy was 98.4%. Average Same Property Portfolio occupancy for the third quarter 2022 was 98.6%. As of September 30, 2022, the Company's consolidated portfolio, excluding value-add repositioning assets, was 97.8% occupied and 98.0% leased, and the Company's consolidated portfolio, including value-add repositioning assets, was 94.5% occupied and 95.3% leased.

Transaction Activity:

During the third quarter of 2022, the Company completed 13 acquisitions with 2.2 million square feet of buildings on 105.1 acres of land, including 1.0 acres of land for near term redevelopment, for an aggregate purchase price of \$977.5 million. This includes one transaction not previously disclosed that was acquired through an off-market transaction in mid-September:

- 13301 Main Street, Los Angeles, located within the LA – South Bay submarket, was acquired for \$51.2 million, or \$478 per square foot. The 106,969 square foot, single-tenant modern industrial building, situated on 4.5 acres, is leased and generates an initial 4.2% unlevered yield on investment, growing over time by 4.0% annual contractual rent increases.

Subsequent to the third quarter of 2022, the Company completed one acquisition through an off-market transaction in October:

- 20851 Currier Road, City of Industry, located within the LA – San Gabriel Valley submarket, was acquired for \$21.8 million, or \$367 per square foot. The 59,412 square foot, Class-A single tenant building, situated on 2.8 acres, is currently vacant and projected to generate a 5.0% unlevered stabilized yield on total investment following a light renovation and lease up at market rents.

Year-to-date, including the property acquired subsequent to quarter end, the Company has completed 46 acquisitions with 5.1 million square feet of buildings on 275.6 acres of land, including 31.4 acres of land for near term redevelopment, for an aggregate purchase price of \$2.1 billion. In aggregate, these investments are projected to generate a weighted average unlevered initial yield of 3.0% and an estimated weighted average stabilized yield on total investment of 4.7%.

During the third quarter of 2022, the Company stabilized two repositioning projects with 230,353 square feet and \$35.7 million of total investment at a weighted average 11.1% unlevered stabilized yield. Year to date, the Company has stabilized four repositioning/redevelopment projects with 404,220 square feet and \$72.6 million of total investment at a weighted average 8.9% unlevered stabilized yield.

Balance Sheet:

The Company ended the third quarter with \$1.2 billion in liquidity, including \$37.1 million in cash on hand, \$1.0 billion available under its unsecured revolving credit facility and an estimated \$188.6 million of forward equity proceeds available for settlement to occur before the fourth quarter of 2023. As of September 30, 2022, the Company had \$1.9 billion of outstanding debt, with an average interest rate of 3.2% and an average term-to-maturity of 5.8 years.

As previously disclosed, on July 19, 2022, the Company amended its senior unsecured credit agreement to add a \$400 million unsecured term loan with a maturity date of July 19, 2024 (with two extension options of one year each). Proceeds from the \$400 million term loan were used to fund acquisitions, reduce outstanding borrowings under the unsecured revolving credit facility and for general corporate purposes.

On July 21, 2022, the Company executed five interest rate swap agreements to manage its exposure to changes in 1-month term SOFR related to \$300 million of its variable-rate debt. These swaps, which are effective July 27, 2022, and mature on May 26, 2027, fix 1-month term SOFR at a weighted average rate of 2.81725%. Including the impact of these interest rate swaps, the hedged effective interest rate on the \$300 million unsecured term loan maturing in May 2027 is 3.717%.

During the third quarter of 2022, the Company executed on its ATM program, selling 5,127,587 shares of common stock subject to forward sale agreements at an average price of \$65.43 per share for a gross value of \$335.5 million. On September 22, 2022, the Company partially settled these forward equity sale agreements and all the outstanding forward equity sale agreements from prior quarter sales by issuing 11,515,553 shares of common stock for net proceeds of \$697.0 million.

As of September 30, 2022, the \$1.0 billion ATM program had approximately \$201.0 million of remaining capacity.

In the third quarter of 2022, Rexford Industrial's investment grade issuer and senior unsecured ratings were upgraded by Moody's Investors Service ("Moody's") and S&P Global Ratings ("S&P"). Moody's upgraded the Company's ratings to Baa2 from Baa3 with a stable outlook. S&P upgraded the Company's ratings to BBB+ from BBB with a stable outlook.

Dividends:

On October 17, 2022, the Company's Board of Directors declared a dividend in the amount of \$0.315 per share for the fourth quarter of 2022, payable in cash on January 17, 2023, to common stockholders and common unit holders of record as of December 30, 2022.

On October 17, 2022, the Company's Board of Directors declared a quarterly dividend of \$0.367188 per share of its Series B Cumulative Redeemable Preferred Stock and a quarterly dividend of \$0.351563 per share of its Series C Cumulative Redeemable Preferred Stock, payable in cash on December 30, 2022, to preferred stockholders of record as of December 15, 2022.

Guidance

The Company is revising its full year 2022 guidance as indicated below. The Core FFO guidance refers only to the Company's in-place portfolio as of October 19, 2022, and does not include any assumptions for other acquisitions, dispositions or related balance sheet activities that have not closed. Please refer to the Company's supplemental information package for a complete list of guidance and 2022 Guidance Rollforward.

2022 Outlook ⁽¹⁾	Q3'22 Updated Guidance	Q2'22 Guidance
Net Income Attributable to Common Stockholders per diluted share	\$0.88 - \$0.90	\$0.84 - \$0.87
Company share of Core FFO per diluted share	\$1.93 - \$1.95	\$1.87 - \$1.90
Same Property Portfolio NOI Growth	7.00% - 7.25%	5.75% - 6.25%
Same Property Portfolio Cash NOI Growth	9.75% - 10.00%	8.50% - 9.00%
Average Same Property Portfolio Occupancy (Full Year)	98.50% - 98.75%	98.50% - 98.75%
General and Administrative Expenses ⁽²⁾	\$62.5M - \$63.5M	\$60.5M - \$61.5M
Net Interest Expense	\$50.5M - \$51.0M	\$51.0M - \$52.0M

- (1) 2022 Guidance represents the in-place portfolio as of October 19, 2022, and does not include any assumptions for prospective acquisitions, dispositions or related balance sheet activities that have not closed.
- (2) 2022 General and Administrative expense guidance includes estimated non-cash equity compensation expense of \$26.0 million. Non-cash equity compensation includes restricted stock, time-based LTIP units and performance units that are tied to the Company's overall performance and may or may not be realized based on actual results.

A number of factors could impact the Company's ability to deliver results in line with its guidance, including, but not limited to, the impact of the ongoing COVID-19 pandemic, interest rates, inflation, the economy, the supply and demand of industrial real estate, the availability and terms of financing to the Company or to potential acquirers of real estate and the timing and yields for divestment and investment. There can be no assurance that the Company can achieve such results.

Forward Looking Statements:

This press release may contain forward-looking statements within the meaning of the federal securities laws, which are based on current expectations, forecasts and assumptions that involve risks and uncertainties that could cause actual outcomes and results to differ materially. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," or "potential" or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. While forward-looking statements reflect the Company's good faith beliefs, assumptions and expectations, they are not guarantees of future performance. For a further discussion of these and other factors that could cause the Company's future results to differ materially from any forward-looking statements, see the reports and other filings by the Company with the U.S. Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2021, and other filings with the Securities and Exchange Commission. The Company disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

Definitions / Discussion of Non-GAAP Financial Measures:

Funds from Operations (FFO): We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts (“NAREIT”). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, gains (or losses) from sales of assets incidental to our business, impairment losses of depreciable operating property or assets incidental to our business, real estate related depreciation and amortization (excluding amortization of deferred financing costs and amortization of above/below-market lease intangibles) and after adjustments for unconsolidated joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs’ FFO. FFO should not be used as a measure of our liquidity and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to FFO is set forth below. “Company Share of FFO” reflects FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

Core Funds from Operations (Core FFO): We calculate Core FFO by adjusting FFO to exclude the impact of certain items that we do not consider reflective of our core revenue or expense streams. These adjustments consist of (i) acquisition expenses, (ii) loss on extinguishment of debt, (iii) the amortization of the loss on termination of interest rate swaps, (iv) preferred stock redemption charges and (v) other amounts as they may occur. Management believes that Core FFO is a useful supplemental measure as it provides a more meaningful and consistent comparison of operating performance and allows investors to more easily compare the Company’s operating results. Because certain of these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs’ Core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of FFO to Core FFO is set forth below. “Company Share of Core FFO” reflects Core FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

Reconciliation of Net Income Attributable to Common Stockholders per Diluted Share Guidance to Company Share of Core FFO per Diluted Share Guidance:

The following is a reconciliation of the Company’s 2022 guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Company share of Core FFO per diluted share.

	2022 Estimate	
	Low	High
Net income attributable to common stockholders	\$ 0.88	\$ 0.90
Company share of depreciation and amortization	1.09	1.09
Company share of gains on sale of real estate	(0.05)	(0.05)
Company share of FFO	\$ 1.92	\$ 1.94
Add: Core FFO adjustments ⁽¹⁾	0.01	0.01
Company share of Core FFO	\$ 1.93	\$ 1.95

(1) Core FFO adjustments consist of (i) acquisition expenses, (ii) loss on extinguishment of debt and (iii) the amortization of the loss on termination of interest rate swaps.

Net Operating Income (NOI): NOI is a non-GAAP measure, which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as rental income from real estate operations less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have a real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of net income to NOI for our Same Property Portfolio, is set forth below.

Cash NOI: Cash NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI: (i) fair value lease revenue and (ii) straight-line rent adjustments. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of net income to Cash NOI for our Same Property Portfolio, is set forth below.

Same Property Portfolio: Our 2022 Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly owned by us for the period from January 1, 2021 through September 30, 2022, and excludes properties that were acquired or sold during the period from January 1, 2021 through September 30, 2022, and properties acquired prior to January 1, 2021, that were classified as current or future repositioning, redevelopment or lease-up during 2021 or 2022 (unless otherwise noted), which we believe significantly affected the properties' results during the comparative periods. As of September 30, 2022, our 2022 Same Property Portfolio consists of 224 properties aggregating 28,581,460 rentable square feet.

Properties and Space Under Repositioning: Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy. We consider a repositioning property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning construction work.

Net Debt to Enterprise Value: As of September 30, 2022, we had consolidated indebtedness of \$1.9 billion, reflecting a net debt to enterprise value of approximately 15.9%. Our enterprise value is defined as the sum of the liquidation preference of our outstanding preferred stock and preferred units plus the market value of our common stock excluding shares of nonvested restricted stock, plus the aggregate value of common units not owned by us, plus the value of our net debt. Our net debt is defined as our consolidated indebtedness less cash and cash equivalents.

Forward-Looking Statements: This supplemental package contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. We caution investors that any forward-looking statements presented herein are based on management’s beliefs and assumptions and information currently available to management. Such statements are subject to risks, uncertainties and assumptions and may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. These risks and uncertainties include, without limitation: general risks affecting the real estate industry (including, without limitation, the market value of our properties, the inability to enter into or renew leases at favorable rates, dependence on tenants’ financial condition, and competition from other developers, owners and operators of real estate); risks associated with the disruption of credit markets or a global economic slowdown; risks associated with the potential loss of key personnel (most importantly, members of senior management); risks associated with our failure to maintain our status as a Real Estate Investment Trust under the Internal Revenue Code of 1986, as amended; possible adverse changes in tax and environmental laws; an epidemic or pandemic (such as the outbreak and worldwide spread of novel coronavirus (COVID-19), and the measures that international, federal, state and local governments, agencies, law enforcement and/or health authorities may implement to address it, which may (as with COVID-19) precipitate or exacerbate one or more of the above-mentioned factors and/or other risks, and significantly disrupt or prevent us from operating our business in the ordinary course for an extended period; litigation, including costs associated with prosecuting or defending pending or threatened claims and any adverse outcomes, and potential liability for uninsured losses and environmental contamination.

For a further discussion of these and other factors that could cause our future results to differ materially from any forward-looking statements, see Item 1A. Risk Factors in our 2021 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission (“SEC”) on February 17, 2022. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

- (1) Our 2022 Net Income and Core FFO guidance refers to the Company's in-place portfolio as of October 19, 2022, and does not include any assumptions for prospective acquisitions, dispositions or related balance sheet activities that have not closed.
- (2) See page 36 for a reconciliation of the Company's 2022 guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Company share of Core FFO per diluted share.
- (3) Our 2022 Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly owned by us for the period from January 1, 2021 through October 19, 2022 and excludes properties that were or will be classified as repositioning/redevelopment (current and future) or lease-up during 2021 and 2022 (unless otherwise noted). As of September 30, 2022, our 2022 Same Property Portfolio consists of 224 properties aggregating 28.6 million rentable square feet.
- (4) Our 2022 General and Administrative expense guidance includes estimated non-cash equity compensation expense of \$26.0 million.

* A number of factors could impact the Company's ability to deliver results in line with its guidance, including, but not limited to, the impact of the ongoing COVID-19 pandemic, interest rates, inflation, the economy, the supply and demand of industrial real estate, the availability and terms of financing to the Company or to potential acquirers of real estate and the timing and yields for divestment and investment. There can be no assurance that the Company can achieve such results.

(1) We elected the "non-separation practical expedient" in ASC 842, which allows us to avoid separating lease and non-lease rental income. As a result of this election, all rental income earned pursuant to tenant leases, including tenant reimbursements, is reflected as one line, "Rental income," in the consolidated statements of operations. Under the section "Rental Income" on page 35 in the definitions section of this report, we include a presentation of rental revenues, tenant reimbursements and other income for all periods because we believe this information is frequently used by management, investors, securities analysts and other interested parties to evaluate our performance.

(2) Acquisition expenses for all periods prior to December 31, 2021 have been reclassified to "Other expenses." Other expenses for the three months ended December 31, 2021 include (i) a \$992 impairment charge related to the right-of-use asset for one of our leased office spaces that we subleased, (ii) \$211 of construction costs related to cancelled projects and (iii) \$59 of acquisition expenses.

(3) In connection with the redemption of our Series A Preferred Stock on August 16, 2021, we recognized a non-cash charge of \$3,349, as a reduction to net income attributable to common stockholders for the original issuance costs related to the Series A Preferred Stock.

(3) The credit facility is subject to a facility fee which is calculated as a percentage of the total commitment amount, regardless of usage. The facility fee ranges from 0.125% to 0.300% depending on our investment grade rating. As of September 30, 2022, the facility fee rate is 0.125%.

(4) The \$1.0B revolving credit facility has two six-month extensions available at the borrower's option, subject to certain terms and conditions.

(5) The interest rates on these loans are comprised of Daily SOFR for the revolving credit facility and 1-Month Term SOFR for the \$300M and \$400M term loan facilities, plus a SOFR adjustment of 0.10% and an applicable margin ranging from 0.725% to 1.40% for the revolving credit facility and 0.80% to 1.60% for the \$300M and \$400M term loan facilities depending on our credit ratings, leverage ratio and sustainability performance metrics, which may change from time to time. During the three months ended September 30, 2022, our credit ratings were upgraded by two credit rating agencies and as a result, the applicable margin on the revolving credit facility was lowered to 0.725% from 0.775% and the applicable margin on the \$300M and \$400M term loan facilities was lowered to 0.80% from 0.85%.

(6) We effectively fixed the 1-Month Term SOFR related to our \$300M term loan facility at a weighted average rate of 2.81725%, commencing on July 27, 2022 through May 26, 2027, by executing five interest rate swap transactions with an aggregate notional value of \$300.0 million. The hedged effective interest rate on the \$300M term loan facility is 3.717%.

(7) One two-year extension is available, provided that certain conditions are satisfied.

(8) The weighted average remaining term to maturity of our consolidated debt is 5.8 years.

(9) Excludes the effect of scheduled monthly principal payments on amortizing loans.

(1) Excludes month-to-month tenants.

(2) Retention rate is calculated as renewal lease square footage plus relocation/expansion square footage, divided by expiring lease square footage. Retention excludes square footage related to the following: (i) expiring leases associated with space that is placed into repositioning (including "Other Repositioning" projects beginning in Q2-22) after the tenant vacates, (ii) early terminations with prenegotiated replacement leases and (iii) move outs where space is directly leased by subtenants. The retention rate for periods prior to Q2-22 have been adjusted to conform to the current definition.

(3) Retention + Backfill rate represents square feet retained (per Retention Rate definition in footnote 2) plus the square footage of move outs in the quarter which were re-leased prior to or during the same quarter, divided by expiring lease square footage.

(4) GAAP and cash rent statistics and turnover costs for new leases exclude 13 leases aggregating 392,481 RSF for which there was no comparable lease data. Of these 13 excluded leases, 3 leases totaling 248,284 RSF relate to current year significant repositioning/redevelopment properties. Comparable leases generally exclude: (i) space that has never been occupied under our ownership, (ii) repositioned/redeveloped space, (iii) space that has been vacant for over one year or (iv) lease terms shorter than six months.

(5) Turnover costs include estimated tenant improvement and leasing costs associated with leases executed during the current period. Excludes costs for 1st generation leases.

(6) See page 36 for further details on uncommenced leases.

(1) For tenant improvements and leasing commissions, reflects the aggregate square footage of the leases in which we incurred such costs, excluding new/renewal leases in which there were no tenant improvements and/or leasing commissions. For recurring capex, reflects the weighted average square footage of our consolidated portfolio for the period (including properties that were sold during the period). For nonrecurring capex, reflects the aggregate square footage of the properties in which we incurred such capital expenditures.

(2) Includes capital expenditures related to properties that were under repositioning or redevelopment as of September 30, 2022. See pages [26-27](#) for details of these properties.

(3) Includes non-tenant-specific capital expenditures with costs less than \$100,000 per unit.

(4) Includes other nonrecurring capital expenditures including, but not limited to, seismic and fire sprinkler upgrades, replacements of either roof or parking lots, ADA related construction and capital expenditures for deferred maintenance existing at the time such property was acquired.

(5) Includes the following capitalized costs: (i) compensation costs of personnel directly responsible for and who spend their time on redevelopment, renovation and rehabilitation activity and (ii) interest, property taxes and insurance costs incurred during the pre-development and construction periods of repositioning or redevelopment projects.

* "Properties and Space Under Repositioning" are typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy.

(1) For a definition and discussion of non-GAAP financial measures, see the notes and definitions section beginning on page 32 of this report.

(2) Represents the estimated incremental base rent from uncommenced new and renewal leases as if they had commenced as of July 1, 2022.

(3) Represents the estimated incremental NOI from Q3'22 acquisitions as if they had been acquired on July 1, 2022. We have made a number of assumptions in such estimates and there can be no assurance that we would have generated the projected levels of NOI had we actually owned the acquired entities as of July 1, 2022.

(4) Represents the estimated incremental NOI from the properties that were classified as current or future repo/redev, lease-up or stabilized during the three months ended September 30, 2022, assuming that all repo/redev work had been completed and all of the properties were fully stabilized as of July 1, 2022. Includes all properties that are separately listed on pages 26 - 27 and excludes "Other Repositionings." We have made a number of assumptions in such estimates & there can be no assurance that we would have generated the projected levels of NOI had these properties actually been stabilized as of July 1, 2022.

(5) Excludes unamortized loan discount and debt issuance costs totaling \$14.3 million.

(6) Represents outstanding shares of common stock of the Company, which excludes 275,717 shares of unvested restricted stock.

(7) Represents outstanding common units of the Company's operating partnership, Rexford Industrial Realty, L.P., that are owned by unit holders other than Rexford Industrial Realty, Inc. Includes 659,586 vested LTIP Units and 744,899 vested performance units and excludes 250,006 unvested LTIP Units and 1,096,819 unvested performance units.

Adjusted Funds from Operations (“AFFO”): We calculate adjusted funds from operations, or AFFO, by adding to or subtracting from FFO, as defined below, the following items: (i) certain non-cash operating revenues and expenses, (ii) capitalized operating expenditures such as construction payroll, (iii) recurring capital expenditures required to maintain and re-tenant our properties, (iv) capitalized interest costs resulting from the repositioning/redevelopment of certain of our properties and (v) 2nd generation tenant improvements and leasing commissions. Management uses AFFO as a supplemental performance measure because it provides a performance measure that, when compared year over year, captures trends in portfolio operating results. We also believe that, as a widely recognized measure of the performance of REITs, AFFO will be used by investors as a basis to assess our performance in comparison to other REITs. However, because AFFO may exclude certain non-recurring capital expenditures and leasing costs, the utility of AFFO as a measure of our performance is limited. Additionally, other Equity REITs may not calculate AFFO using the method we do. As a result, our AFFO may not be comparable to such other Equity REITs’ AFFO. AFFO should be considered only as a supplement to net income (as computed in accordance with GAAP) as a measure of our performance.

In-Place Annualized Base Rent and Uncommenced Annualized Base Rent:

- **In-Place Annualized Base Rent (“In-Place ABR”):** Calculated as the monthly contractual base rent (before rent abatements) per the terms of the lease, as of September 30, 2022, multiplied by 12. Includes leases that have commenced as of September 30, 2022 or leases where tenant has taken early possession of space as of September 30, 2022. Excludes billboard and antenna revenue and tenant reimbursements.
- **In-Place ABR per Square Foot:** Calculated by dividing In-Place ABR for the lease by the occupied square feet of the lease, as of September 30, 2022.
- **Combined In-Place and Uncommenced Annualized Base Rent (“In-Place + Uncommenced ABR”):** Calculated by adding (i) In-Place ABR and (ii) ABR Under Uncommenced Leases (see definition below). Does not include adjustments for leases that expired and were not renewed subsequent to September 30, 2022, or adjustments for future known non-renewals.
- **ABR Under Uncommenced Leases:** Calculated by adding the following:
 - (i) ABR under Uncommenced New Leases = first full month of contractual base rents (before rent abatements) to be received under Uncommenced New Leases, multiplied by 12.
 - (ii) Incremental ABR under Uncommenced Renewal Leases = difference between: (a) the first full month of contractual base rents (before rent abatements) to be received under Uncommenced Renewal Leases and (b) the monthly In-Place ABR for the same space as of September 30, 2022, multiplied by 12.
- **In-Place + Uncommenced ABR per Square Foot:** Calculated by dividing (i) In-Place + Uncommenced ABR for the leases by (ii) the square footage under commenced and uncommenced leases (net of renewal space) as of September 30, 2022.
- **Uncommenced New Leases:** Reflects new leases (for vacant space) that have been signed but have not yet commenced as of September 30, 2022.

- **Uncommenced Renewal Leases:** Reflects renewal leases (for space occupied by renewing tenant) that have been signed but have not yet commenced as of September 30, 2022.

Capital Expenditures, Non-recurring: Expenditures made with respect to a property for repositioning, redevelopment, major property or unit upgrade or renovation, and further includes capital expenditures for seismic upgrades, roof or parking lot replacements and capital expenditures for deferred maintenance existing at the time such property was acquired.

Capital Expenditures, Recurring: Expenditures made with respect to a property for maintenance of such property and replacement of items due to ordinary wear and tear including, but not limited to, expenditures made for maintenance of parking lot, roofing materials, mechanical systems, HVAC systems and other structural systems. Recurring capital expenditures shall not include any of the following: (a) major upgrade or renovation of such property not necessary for proper maintenance or marketability of such property; (b) capital expenditures for seismic upgrades; (c) capital expenditures for deferred maintenance for such property existing at the time such property was acquired; or (d) replacements of either roof or parking lots.

Capital Expenditures, First Generation: Capital expenditures for newly acquired space, newly developed or redeveloped space, or change in use.

Cash NOI: Cash basis NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI (i) fair value lease revenue and (ii) straight-line rent adjustment. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

Core Funds from Operations (“Core FFO”): We calculate Core FFO by adjusting FFO, as defined below, to exclude the impact of certain items that we do not consider reflective of our core revenue or expense streams. Core FFO adjustments consist of (i) acquisition expenses, (ii) loss on extinguishment of debt, (iii) the amortization of the loss on termination of interest rate swaps, (iv) impairments of right of use assets, (v) preferred stock redemption charges and (vi) other amounts as they may occur. Management believes that Core FFO is a useful supplemental measure as it provides a more meaningful and consistent comparison of operating performance and allows investors to more easily compare the Company’s operating results. Because these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs’ core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. “Company Share of Core FFO” reflects Core FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders (which consists of preferred stock dividends, but excludes non-recurring preferred stock redemption charges related to the write-off of original issuance costs which we do not consider reflective of our core revenue or expense streams).

Our actual performance for each covenant is calculated based on the definitions set forth in each loan agreement/indenture.

EBITDAre and Adjusted EBITDA: We calculate EBITDAre in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). EBITDAre is calculated as net income (loss) (computed in accordance with GAAP), before interest expense, tax expense, depreciation and amortization, gains (or losses) from sales of depreciable operating property, impairment losses of depreciable property and adjustments to reflect our proportionate share of EBITDAre from our unconsolidated joint venture. We calculate Adjusted EBITDA by adding or subtracting from EBITDAre the following items: (i) non-cash stock based compensation expense, (ii) gain (loss) on extinguishment of debt, (iii) acquisition expenses, (iv) impairments of right of use assets and (v) the pro-forma effects of acquisitions and dispositions. We believe that EBITDAre and Adjusted EBITDA are helpful to investors as a supplemental measure of our operating performance as a real estate company because it is a direct measure of the actual operating results of our industrial properties. We also use these measures in ratios to compare our performance to that of our industry peers. In addition, we believe EBITDAre and Adjusted EBITDA are frequently used by securities analysts, investors and other interested parties in the evaluation of Equity REITs. However, because EBITDAre and Adjusted EBITDA are calculated before recurring cash charges including interest expense and income taxes, and are not adjusted for capital expenditures or other recurring cash requirements of our business, their utility as a measure of our liquidity is limited. Accordingly, EBITDAre and Adjusted EBITDA should not be considered alternatives to cash flow from operating

activities (as computed in accordance with GAAP) as a measure of our liquidity. EBITDAre and Adjusted EBITDA should not be considered as alternatives to net income or loss as an indicator of our operating performance. Other Equity REITs may calculate EBITDAre and Adjusted EBITDA differently than we do; accordingly, our EBITDAre and Adjusted EBITDA may not be comparable to such other Equity REITs' EBITDAre and Adjusted EBITDA. EBITDAre and Adjusted EBITDA should be considered only as supplements to net income (as computed in accordance with GAAP) as a measure of our performance.

Ending occupancy excluding repositioning/redevelopment: Represents consolidated portfolio occupancy adjusted to exclude all vacant SF associated with Repositioning and Redevelopment projects, including those combined in "Other Repositioning".

NAREIT Defined Funds from Operations ("FFO"): We calculate FFO in accordance with the standards established by NAREIT. FFO represents net income (loss) (computed in accordance with

GAAP), excluding gains (or losses) on sale of real estate assets, gains (or losses) on sale of assets incidental to our business, impairment losses of depreciable operating property or assets incidental to our business, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions or assets incidental to our business, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate and other assets incidental to our business, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity, and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. "Company Share of FFO" reflects FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders (which consists of preferred stock dividends and any preferred stock redemption charges related to the write-off of original issuance costs).

Net Operating Income ("NOI"): NOI is a non-GAAP measure which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as total revenue from real estate operations including i) rental income, ii) tenant reimbursements, and iii) other income less property expenses. We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense, general and administrative expenses, interest expense, gains (or losses) on sale of real estate and other non-operating items, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

Proforma NOI: Proforma NOI is calculated by adding to NOI the following adjustments: (i) the estimated impact on NOI of uncommenced leases as if they had commenced at the beginning of the reportable period, (ii) the estimated impact on NOI of current period acquisitions as if they had been acquired at the beginning of the reportable period, (iii) the actual NOI of properties sold during the current period and (iv) the estimated incremental NOI from properties that were classified as repositioning/lease-up properties as of the end of the reporting period, assuming that all repositioning work had been completed and the properties/space were fully stabilized as of the beginning of the reportable period. These estimates do not purport to be indicative of what operating results would have been had the transactions actually occurred at the beginning of the reportable period and may not be indicative of future operating results.

Definitions Related to Properties and Space Under Repositioning/Redevelopment:

- **Properties and Space Under Repositioning:** Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy.
- **Properties Under Redevelopment:** Typically defined as a properties where we plan to fully or partially demolish an existing building(s) due to building obsolescence and/or a property with excess or vacant land where we plan to construct a ground-up building.
- **Estimated Construction Period:** The "Start" of the Estimated Construction Period is our current estimate of the period in which we will start physical construction on a property. Prior to Q4-2020, we defined the "Start" as the period in which we began activities to get a property ready for its intended use, which included pre-construction activities, including securing entitlements or permits, design, site work, and other necessary activities preceding construction. The Target Completion of the Estimated Construction Period is our current estimate of the period in which we will have substantially completed a project and the project is made available for occupancy. We expect to update our timing estimates on a quarterly basis.
- **Purchase Price:** Represents the contractual purchase price of the property plus closing costs.
- **Projected Repositioning/Redevelopment Costs:** Represents the estimated costs to be incurred to complete construction and lease-up each repositioning/redevelopment project. Estimated costs include (i) nonrecurring capital expenditures, (ii) estimated tenant improvement allowances/costs and (iii) estimated leasing commissions. We expect to update our estimates upon completion of the project, or sooner if there are any significant changes to expected costs from quarter to quarter. Excludes capitalized costs including capitalized interest, property taxes, insurance and compensation.
- **Projected Total Investment:** Includes the sum of the Purchase Price and Projected Repositioning/Redevelopment Costs.
- **Cumulative Investment to Date:** Includes the Purchase Price and nonrecurring capital expenditures, tenant improvement costs and leasing commission costs incurred as of the reporting date.
- **Estimated Annual Stabilized Cash NOI:** Represents management's estimate of each project's annual Cash NOI once the property has reached stabilization and initial rental concessions, if any, have elapsed. Actual results may vary materially from our estimates.

Notes and Definitions.

- **Actual Quarterly NOI:** Represents the actual cash NOI (a non-GAAP measure defined on page 32) for the repositioning/redevelopment property for the entire reported quarter or from the date of acquisition if such property was acquired during the current reported quarter.
- **Estimated Unlevered Stabilized Yield:** Calculated by dividing each project's Estimated Annual Stabilized Cash NOI by its Projected Total Investment.
- **Stabilization Date - Properties and Space Under Repositioning/Redevelopment:** We consider a repositioning/redevelopment property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning/redevelopment construction work.

Rental Income: See below for a breakdown of consolidated rental income for the last five trailing quarters. We believe this information is frequently used by management, investors, securities analysts and other interested parties to evaluate the our performance.

Rent Change - Cash: Compares the first month cash rent excluding any abatement on new/renewal leases to the last month rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude: (i) space that has never been occupied under our ownership, (ii) repositioned/redeveloped space, (iii) space that has been vacant for over one year or (iv) lease terms shorter than six months.

Rent Change - GAAP: Compares GAAP rent, which straightlines rental rate increases and abatements, on new/renewal leases to GAAP rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude: (i) space that has never been occupied under our ownership, (ii) repositioned/redeveloped space, (iii) space that has been vacant for over one year or (iv) lease terms shorter than six months.

Same Property Portfolio ("SPP"): Our 2022 SPP is a subset of our consolidated portfolio and includes properties that were wholly owned by us for the period from January 1, 2021 through September 30, 2022, and excludes (i) properties that were acquired or sold during the period from January 1, 2021 through September 30, 2022, and (ii) properties acquired prior to January 1, 2021 that were or will be classified as repositioning/redevelopment (current and future) or lease-up during 2021 and 2022 (as separately listed on pages 26-27), which we believe will significantly affect the properties' results during the comparative periods. Our SPP has not been adjusted for properties in "Other Repositioning."
