LOS ANGELES, Jan. 10, 2022 /PRNewswire/ -- Rexford Industrial Realty, Inc. (the "Company" or "Rexford Industrial") (NYSE: REXR), a real estate investment trust focused on creating value by investing in and operating industrial properties in Southern California infill markets, today announced operating results, investment and capital markets activity for the fourth quarter and full year 2021.

"Rexford's exceptional fourth quarter and full year results reflect the strength of our entrepreneurial team and highly-focused business model dedicated to creating value by investing in industrial property throughout infill Southern California, the world's fourth largest industrial market and highest-demand, lowest supply market in the nation," stated Michael Frankel and Howard Schwimmer, Co-Chief Executive Officers of the Company. "Southern California's extensive supply-demand imbalance and extraordinary level of tenant demand continue to drive an operating environment that favors landlord pricing power. Our team completed nearly 7 million square feet of leases during the year, achieving full year GAAP and cash releasing spreads of 43% and 29%, respectively, which brought Same Property occupancy to 99.1% at year-end. We completed \$1.9 billion of investments projected to generate a 5.4% weighted average stabilized unlevered cash yield, representing returns significantly above current sub-4.0% market cap rates. Approximately 90% of our 2021 acquisitions were acquired through off-market or lightly-marketed transactions enabled by our proprietary, research- and relationship-driven originations methods. Rexford's ongoing growth opportunity is substantial, with over \$400 million of new investments under contract or accepted offer and with extensive current and future value-add internal growth initiatives, including approximately \$635 million of in-process and near-term repositioning and redevelopment projects projected to generate an aggregate 6.5% stabilized unlevered yield on total investment. Further, our low-leverage, fortress-like balance sheet positions the Company to maximize cash flow growth and long-term value for our stakeholders.
