"Rexford Industrial, the nation's largest pure-play, U.S.-focused industrial REIT, delivered exceptional fourth quarter and full year results enabled by our differentiated strategy focused on value creation within infill Southern California, the nation's highest-demand with lowest-supply major industrial market. For the full year, our team increased Core FFO by 45% and Core FFO per share by 20% compared to the prior year. We executed 5.1 million square feet of new and renewal leases at leasing spreads of 81% and 59% on a GAAP and cash basis, respectively. Our proprietary acquisition sourcing generated a record \$2.4 billion of investments within our premier infill Southern California industrial market, 90% of which were transacted on an off-market or lightly marketed basis. During the year, we stabilized seven repositioning projects totaling \$140.1 million dollars in total investment, at an aggregate 8.9% unlevered stabilized yield. Thanks to the extraordinary results delivered by our team, we are pleased to increase our dividend by 21%, reflecting our continued commitment to delivering superior total shareholder returns," stated Michael Frankel and Howard Schwimmer, Co-Chief Executive Officers of the Company. "Looking forward, our in-place portfolio is poised to deliver significant embedded NOI growth through an estimated

73% net effective mark-to-market on in-place leases and with over 3.3 million square feet of value-add repositioning and redevelopment projects underway or in our near-term pipeline. We also continue to source accretive investment opportunities, with \$405 million of investments closed year-to-date and an additional pipeline of over \$125 million of acquisitions under contract or accepted offer, which are subject to customary closing conditions. Our low leverage balance sheet achieves the dual outcome associated with protecting our business during uncertain economic times while also positioning the Company to capitalize upon highly-accretive internal and external growth opportunities that drive long-term value-creation for our shareholders."

Financial Results:

The Company reported net income attributable to common stockholders for the fourth quarter of \$40.7 million, or \$0.22 per diluted share, compared to \$34.8 million, or \$0.23 per diluted share, for the prior year quarter. The net income in the prior year quarter includes \$6.6 million of gains on sale of real estate. For the year ended December 31, 2022, net income attributable to common stockholders was \$157.5 million, or \$0.92 per diluted share, compared to \$111.8 million, or \$0.80 per diluted share for the prior year. The net income for the year ended December 31, 2022, includes \$8.5 million of gains on sale of real estate, as compared to \$33.9 million for the prior year.

The Company reported Core FFO for the fourth quarter of \$90.3 million, representing a 29.8% increase compared to \$69.6 million for the prior year quarter. The Company reported Core FFO of \$0.49 per diluted share, representing an increase of 8.9% compared to \$0.45 per diluted share for the prior year quarter. For the year ended December 31, 2022, Core FFO was \$334.7 million, representing a 45.3% increase compared to \$230.3 million for the prior year. For the year ended December 31, 2022, the Company reported Core FFO of \$1.96 per diluted share, representing an increase of 19.5% compared to \$1.64 per diluted share for the prior year.

In the fourth quarter, the Company's consolidated portfolio NOI and Cash NOI increased 35.7% and 31.2%, respectively, compared to the prior year quarter. For the year ended December 31, 2022, the Company's consolidated portfolio NOI and Cash NOI increased 39.6% and 35.7%, respectively, compared to the prior year.

In the fourth quarter, the Company's Same Property Portfolio NOI and Cash NOI increased 7.3% and 10.7%, respectively, compared to the prior year quarter. For the year ended December 31, 2022, the Company's Same Property Portfolio NOI and Cash NOI increased 7.4% and 10.5%, respectively compared to the prior year.

Operating Results:

Fourth quarter and full year 2022 leasing activity demonstrates strong tenant demand fundamentals within Rexford Industrial's target Southern California infill markets:

	Q4-2022 Leasing Activity ⁽¹⁾			
	Releasing Spreads			
	# of Leases			
	Executed	SF of Leasing	GAAP	Cash
New Leases	40	411,428	109.2 %	64.9 %

Total Leases	442	5,107,713	80.9 %	58.8 %

(1) Leasing activity reflects the removal of a 197,892 square foot lease previously reported in the Company's press release published on January 9, 2023. The Company subsequently terminated the lease and is in negotiation to lease the space at more favorable terms compared to the prior lease.

As of December 31, 2022, the Company's Same Property Portfolio occupancy was 98.1%. Average Same Property Portfolio occupancy for the fourth quarter and full year 2022 was 98.0% and 98.7%, respectively. As of December 31, 2022, the Company's consolidated portfolio, excluding value-add repositioning assets, was 97.9% occupied and 97.9% leased, and the Company's consolidated portfolio, including value-add repositioning assets, was 94.6% occupied and 94.7% leased.

As of February 8, 2023, lease expirations for the full year 2023 total 5.8 million rentable square feet, representing approximately 15% of total portfolio rentable square feet. The net effective and cash mark-to-market on the 2023 expiring leases is estimated to be approximately 75% and 61%, respectively. The portfolio-wide mark-to-market is estimated to be 73% on a net effective basis and 58% on a cash basis.

Transaction Activity:

During the fourth quarter of 2022, the Company completed seven acquisitions representing 11 properties with 0.9 million square feet of buildings on 46.8 acres of land, including 2.8 acres of land for near term redevelopment, for an aggregate purchase price of \$357.9 million. These investments generate a weighted average unlevered initial yield of 4.2% and a projected weighted average initial stabilized yield on total investment of 5.4%.

During the full year 2022, the Company completed 52 acquisitions representing 61 properties with 5.9 million square feet of buildings on 319.6 acres of land, including 31.5 acres of land for near term redevelopment, for an aggregate purchase price of \$2.4 billion. In aggregate, these investments generate a weighted average unlevered initial yield of 3.2% and a projected weighted average initial stabilized yield on total investment of 4.8%.

Additionally, the Company sold one property for an aggregate sales price of \$16.5 million, which generated 9.1% unlevered IRR on investment.

Subsequent to the fourth quarter of 2022, the Company completed two acquisitions totaling 1.2 million square feet of buildings on 52.3 acres of land for an aggregate purchase price of \$405.0 million. This includes one transaction not previously disclosed that was acquired in late January.

- 10545 Production Avenue, Fontana, located within the Inland Empire - West submarket for \$365.0 million, or \$331 per square foot. The 1.1 million square foot Class-A, cross-dock industrial building is situated on 45.9 acres of land and is currently occupied by a single tenant through a sale leaseback. The stabilized investment generates an initial unlevered yield on total investment of 5.0%, growing by 4.0% annual contractual increases. According to CBRE, the vacancy rate in the 331 million square foot Inland Empire – West submarket was 1.1% as of the fourth quarter 2022.

During the fourth quarter of 2022, the Company stabilized two repositioning projects and one redevelopment project totaling 240,292 square feet and \$67.5 million of total investment at a weighted average 8.9% unlevered stabilized yield. For the full year 2022, the Company has stabilized seven repositioning/redevelopment projects with 644,512 square feet and \$140.1 million of total investment at a weighted average 8.9% unlevered stabilized yield.

Balance Sheet:

The Company ended the fourth quarter with \$36.8 million in cash on hand and \$1.0 billion available under its unsecured revolving credit facility. As of December 31, 2022, the Company had \$2.0 billion of outstanding debt, with an average interest rate of 3.5% and an average term-to-maturity of 5.6 years. The Company has no significant debt maturities until 2024.

In the fourth quarter of 2022, the Company executed the following equity transactions:

- A public offering of 11,846,425 shares of common stock subject to forward equity sale agreements, including 346,425 shares related to the partial exercise of the underwriters' option to purchase additional shares, at a public offering price of \$56.00 per share for an offering value of \$663.4 million. In December 2022, the Company partially settled these forward equity sale agreements by issuing 3,554,704 shares of common stock for net proceeds of \$198.7 million.
- The at-the-market equity offering program ("ATM"), selling 636,884 shares of common stock subject to forward equity sale agreements at an average price of \$55.85 per share for a gross value of \$35.6 million. As of December 31, 2022, the ATM program had approximately \$165.4 million of remaining capacity.
- Settlement of outstanding forward equity sale agreements from the prior quarter ATM forward execution by issuing 2,903,245 shares of common stock for net proceeds of \$189.3 million.

In October 2022, the Company refinanced its \$60 million amortizing term loan expiring in August 2023. The new \$60.0 million term loan, which has a maturity date of October 27, 2024 with three one-year extension options, bears interest at 1-month SOFR, increased by a 0.10% SOFR adjustment plus an applicable margin of 1.25% per annum.

In November 2022, Rexford Industrial's senior unsecured rating was upgraded by Fitch to BBB+ from BBB with a stable outlook.

Subsequent to the fourth quarter of 2022, the Company partially settled the outstanding forward equity sale agreements related to the public offering by issuing 7,617,013 shares of common stock in exchange for net proceeds of \$425.0 million.

As of February 8, 2023, the Company had approximately \$72.9 million of net forward proceeds remaining for settlement. For the total net forward proceeds, settlement is to occur prior to November 2023 for \$35.2 million and prior to May 2024 for \$37.7 million.

Definitions / Discussion of Non-GAAP Financial Measures:

Funds from Operations (FFO): We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, gains (or losses) from sales of assets incidental to our business, impairment losses of depreciable operating property or assets incidental to our business, real estate related depreciation and amortization (excluding amortization of deferred financing costs and amortization of above/below-market lease intangibles) and after adjustments for unconsolidated joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to FFO is set forth below in the Financial Statements and Reconciliations section. "Company Share of FFO" reflects FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

Core Funds from Operations (Core FFO): We calculate Core FFO by adjusting FFO for non-comparable items outlined in the "Reconciliation of Net Income to Funds From Operations and Core Funds From Operations" table which is located in the Financial Statements and Reconciliations section below. We believe that Core FFO is a useful supplemental measure and that by adjusting for items that are not considered by the Company to be part of its on-going operating performance, provides a more meaningful and consistent comparison of the Company's operating and financial performance period-over-period. Because these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs' Core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. "Company Share of Core FFO" reflects Core FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

Reconciliation of Net Income Attributable to Common Stockholders per Diluted Share Guidance to Company Share of Core FFO per Diluted Share Guidance:

The following is a reconciliation of the Company's 2023 guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Company share of Core FFO per diluted share.

	2023 Estimate	
	Low	High
Net income attributable to common stockholders \$	0.94 \$	0.98
Company share of depreciation and amortization	1.14	1.14
Company share of Core FFO	\$ 2.08 \$	2.12

Net Operating Income (NOI): NOI is a non-GAAP measure, which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as rental income from real estate operations less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have a real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of net income to NOI for our Same Property Portfolio, is set forth below in the Financial Statements and Reconciliations section.

Cash NOI: Cash NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI: (i) fair value lease revenue and (ii) straight-line rent adjustments. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of net income to Cash NOI for our Same Property Portfolio, is set forth below in the Financial Statements and Reconciliations section.

Same Property Portfolio: Our 2022 Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly owned by us for the period from January 1, 2021 through December 31, 2022, and excludes properties that were acquired or sold during the period from January 1, 2021 through December 31, 2022, and properties acquired prior to January 1, 2021, that were classified as current or future repositioning, redevelopment or lease-up during 2021 or 2022 (unless otherwise noted), which we believe significantly affected the properties' results during the comparative periods. As of December 31, 2022, our 2022 Same Property Portfolio consists of 224 properties aggregating 28,584,482 rentable square feet.

Properties and Space Under Repositioning: Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy. We consider a repositioning property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning construction work.

Net Debt to Enterprise Value: As of December 31, 2022, we had consolidated indebtedness of \$2.0 billion, reflecting a net debt to enterprise value of approximately 14.9%. Our enterprise value is defined as the sum of the liquidation preference of our outstanding preferred stock and preferred units plus the market value of our common stock excluding shares of nonvested restricted stock, plus the aggregate value of common units not owned by us, plus the value of our net debt. Our net debt is defined as our consolidated indebtedness less cash and cash equivalents.
