Los Angeles, California - May 1, 2018 - Rexford Industrial Realty, Inc. (the "Company" or "Rexford Industrial") (NYSE: REXR), a real estate investment trust ("REIT") that specializes in acquiring, owning and operating industrial properties located in Southern California infill markets, today announced financial results for the first quarter of 2018.

First Quarter 2018 Financial and Operational Highlights:

- Net income attributable to common stockholders of \$0.15 per diluted share for the quarter ended March 31, 2018, compared to \$0.06 per diluted share last year.
- Company share of Core FFO increased 41.8% year-over-year to \$21.4 million for the quarter ended March 31, 2018.
- Company share of Core FFO per diluted share increased 17.4% year-over-year to \$0.27 per diluted share for the quarter ended March 31, 2018.
- Total first quarter rental revenues of \$48.4 million, which represents an increase of 38.4% year-over-year. Property Net Operating Income (NOI) of \$36.5 million, which represents an increase of 41.5% year-over-year.
- Same Property Portfolio NOI increased 9.3% in the first quarter of 2018 compared to the first quarter of 2017, driven by a 7.8% increase in Same Property Portfolio total rental revenue and a 3.7% increase in Same Property Portfolio operating expenses. Same Property Portfolio Cash NOI increased 8.3% compared to the first quarter of 2017.
- Stabilized Same Property Portfolio NOI increased 7.4% in the first quarter of 2018 compared to the first quarter of 2017.
- Stabilized Same Property Portfolio Cash NOI increased 8.0% compared to the first quarter of 2017.
- Signed new and renewal leases totaling 848,395 rentable square feet. Rental rates on new and renewal leases were 25.3% higher than prior rents on a GAAP basis and 14.9% higher on a cash basis.
- Stabilized Same Property Portfolio occupancy was 97.5%, which represents an increase of 110 basis points year-over-year. Same Property Portfolio occupancy, inclusive of assets in value-add repositioning, was 94.9%, which represents an increase of 220 basis points year-over-year.
- At March 31, 2018, the consolidated portfolio including repositioning assets was 95.6% leased and 95.2% occupied, which represents an increase in occupancy of 630 basis points year-over-year. At March 31, 2018, the consolidated portfolio, excluding repositioning assets aggregating approximately 0.5 million rentable square feet, was 98.1% leased and 97.7% occupied.
- During the first quarter of 2018, the Company acquired five industrial properties for a total purchase price of \$52.7 million.

- During the first quarter of 2018, the Company sold three industrial properties for an aggregate sales price of \$26.9 million.

“Rexford’s strong first quarter results, which culminated with a 42% increase in Core FFO and a 17.4% increase in Core FFO per share, driven in part by a 9.3% increase in Same Property NOI, are indicative of the strength of the value-driven Rexford platform, our focused business model and extensive market opportunity,” stated Michael Frankel and Howard Schwimmer, Co-Chief Executive Officers of the Company. “During the first quarter, we achieved impressive GAAP and cash releasing spreads of 25.3% and 14.9%, respectively, as we capitalized on the favorable fundamentals within the infill Southern California industrial market. We continue to see an extreme scarcity of available space and a supply-demand imbalance into the foreseeable future, as more product is converted to other uses than can be delivered, amidst increasing demand from the dramatic growth in e-commerce, among other landlord-favorable factors.”

Financial Results:

The Company reported net income attributable to common stockholders of \$12.2 million, or \$0.15 per diluted share, for the three months ended March 31, 2018, as compared to net income attributable to common stockholders of \$4.2 million, or \$0.06 per diluted share, for the three months ended March 31, 2017. Net income for the three months ended March 31, 2018 includes \$10.0 million of gains on sale of real estate, as compared to \$2.7 million for the three months ended March 31, 2017.

The Company reported Company share of Core FFO of \$21.4 million, or \$0.27 per diluted share of common stock, for the three months ended March 31, 2018, as compared to Company share of Core FFO of \$15.1 million, or \$0.23 per diluted share of common stock, for the three months ended March 31, 2017. Adjusting for non-core expenses (\$9,000 reported during the first quarter of 2018 and \$385,000 reported during the first quarter of 2017), Company share of FFO was \$21.4 million, or \$0.27 per diluted share of common stock, for the three months ended March 31, 2018, as compared to Company share of FFO of \$14.7 million, or \$0.22 per diluted share of common stock, for the three months ended March 31, 2017.

For the three months ended March 31, 2018, the Company’s Same Property Portfolio GAAP NOI increased 9.3% compared to the first quarter of 2017, driven by a 7.8% increase in Same Property Portfolio total rental revenue and a 3.7% increase in Same Property Portfolio expenses. Same Property Portfolio Cash NOI increased 8.3% compared to the first quarter of 2017. Stabilized Same Property Portfolio NOI increased 7.4% in the first quarter of 2018 compared to the first quarter of 2017 and Stabilized Same Property Portfolio Cash NOI increased 8.0% in the first quarter of 2018 compared to the first quarter of 2017.

Operating Results:

During the first quarter of 2018, the Company signed 117 new and renewal leases totaling 848,395 rentable square feet. Average rental rates on comparable new and renewal leases were up 25.3% on a GAAP basis and up 14.9% on a cash basis. The Company signed 47 new leases for 281,844 rentable square feet, with GAAP rents up 32.0% compared to the prior in-place leases. The Company signed 70 renewal leases for 566,551 rentable square feet, with GAAP rents up 23.1% compared to the prior in-place leases. For the 47 new leases, cash rents increased 18.1%, and for the 70 renewal leases, cash rents were up 13.8%, compared to the ending cash rents for the prior leases.

The Company has included in a supplemental information package the detailed results and operating statistics that reflect the activities of the Company for the three months ended March 31, 2018. See below for information regarding the supplemental information package.

Transaction Activity:

In the first quarter 2018, the Company completed five acquisitions, for an aggregate purchase price of \$52.7 million, as detailed below. Additionally, the Company sold three properties for \$26.9 million.

In January 2018, the Company acquired 13971 Norton Avenue, a 100% leased single-tenant industrial building containing 103,208 square feet on 4.8 acres of land, located in the Inland Empire West submarket, for \$11.4 million or approximately \$110 per square foot.

In February 2018, the Company acquired 1900 Proforma Avenue and 1910-1920 Archibald Avenue, an 86% leased three-building industrial park containing 214,000 square feet on 12.3 acres of land located in the Inland Empire West submarket, for \$24.1 million or approximately \$113 per square foot.

In March 2018, the Company acquired 16010 Shoemaker Avenue, a 100% leased single-tenant industrial property containing 115,600 square feet on 4.4 acres of land, located in the Los Angeles - Mid Counties submarket, for \$17.2 million or approximately \$149 per square foot.

In January 2018, the Company sold 8900-8980 North Benson Avenue and 5637 Arrow Highway, a six building industrial park containing 88,016 square feet in the Inland Empire West submarket, for \$11.4 million or approximately \$130 per square foot.

In January 2018, the Company sold 700 Allen Avenue and 1851 Flower Street, a two-building creative office property containing 25,168 square feet on 1.14 acres of land in the Greater San Fernando Valley submarket, for \$10.9 million or approximately \$433 per square foot.

In March 2018, the Company sold 200-220 South Grand Avenue, a multi-tenant industrial building containing 27,200 square feet in the Orange County Airport submarket, for \$4.5 million or approximately \$166 per square foot.

Balance Sheet:

As of March 31, 2018, the Company had \$662.4 million of outstanding debt, with an average interest rate of 3.39% and an average term-to-maturity of 5.5 years. As of March 31, 2018, approximately \$511 million, or 77%, of the Company's outstanding debt was fixed-rate with an average interest rate of 3.49% and an average term-to-maturity of 5.9 years. The remaining \$151.0 million, or 23%, of the Company's outstanding debt was floating-rate, with an average interest rate of LIBOR + 1.17% and an average term-to-maturity of 4.1 years. The Company has one interest rate swap that will hedge \$100 million of its remaining floating-rate debt beginning in August 2018 when the swap becomes effective. If this interest rate swap was effective as of March 31, 2018, the Company's debt would be 92% fixed and 8% variable with an average interest rate of 3.32%.

During the quarter ended March 31, 2018, the Company issued an aggregate of 2,498,961 shares of common stock under its at-the-market equity offering program (ATM program). The shares were issued at a weighted average price of \$28.16 per share, providing gross proceeds of approximately \$70.4 million and net proceeds of approximately \$69.3 million. As of March 31, 2018, the ATM program had approximately \$158.7 million of remaining capacity.

Guidance

The Company is reiterating and increasing its full year 2018 guidance as follows:

- Net income attributable to common stockholders within a range of \$0.22 to \$0.25 per diluted share
- Company share of Core FFO within a range of \$1.02 to \$1.05 per diluted share
- Year-end Same Property Portfolio occupancy within a range of 95.0% to 97.0%
- Year-end Stabilized Same Property Portfolio occupancy within a range of 96.5% to 98.0%
- Same Property Portfolio NOI growth for the year of 6.5% to 8.5%
- Stabilized Same Property Portfolio NOI growth for the year of 4.5% to 6.0%
- General and administrative expenses of \$24.0 million to \$25.0 million

The Core FFO guidance refers only to the Company's in-place portfolio as of May 1, 2018, and does not include any assumptions for acquisitions, dispositions or balance sheet activities that may or may not occur later during the year. The Company's in-place portfolio as of May 1, 2018, reflects the acquisition of five properties totaling 372,691 rentable square feet and the disposition of one property containing 11,808 rentable square feet that occurred subsequent to March 31, 2018. A number of factors could impact the Company's ability to deliver results in line with its guidance, including, but not limited to, interest rates, the economy, the supply and demand of industrial real estate, the availability

and terms of financing to the Company or to potential acquirers of real estate and the timing and yields for divestment and investment. There can be no assurance that the Company can achieve such results.

Dividends:

On April 30, 2018, the Company's Board of Directors declared a dividend in the amount of \$0.16 per share for the second quarter of 2018, payable in cash on July 16, 2018, to common stockholders and common unit holders of record as of June 29, 2018.

On April 30, 2018, the Company's Board of Directors declared a dividend of \$0.367188 per share of its Series A Cumulative Redeemable Preferred Stock and \$0.367188 per share of its Series B Cumulative Redeemable Preferred Stock, payable in cash on June 29, 2018, to preferred stockholders of record as of June 15, 2018.

Supplemental Information:

Details regarding these results can be found in the Company's supplemental financial package available on the Company's investor relations website at www.ir.rexfordindustrial.com.

Forward Looking Statements:

This press release may contain forward-looking statements within the meaning of the federal securities laws, which are based on current expectations, forecasts and assumptions that involve risks and uncertainties that could cause actual outcomes and results to differ materially. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," or "potential" or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. While forward-looking statements reflect the Company's good faith beliefs, assumptions and expectations, they are not guarantees of future performance. For a further discussion of these and other factors that could cause the Company's future results to differ materially from any forward-looking statements, see the reports and other filings by the Company with the U.S. Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2017, and subsequent filings with the Securities and Exchange Commission. The Company disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

Definitions / Discussion of Non-GAAP Financial Measures:

Funds from Operations (FFO): We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts (“NAREIT”). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, impairment losses, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs’ FFO. FFO should not be used as a measure of our liquidity, and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to FFO is set forth below.

Core Funds from Operations (Core FFO): We calculate Core FFO by adjusting FFO to exclude the impact of certain items that we do not consider reflective of our core revenue or expense streams. These adjustments consist of acquisition expenses. Management believes that Core FFO is a useful supplemental measure as it provides a more meaningful and consistent comparison of operating performance and allows investors to more easily compare the Company’s operating results. Because certain of these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs’ Core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of FFO to Core FFO is set forth below.

Reconciliation of Net Income Attributable to Common Stockholders per Diluted Share Guidance to Company share of Core FFO per Diluted Share Guidance:

The following is a reconciliation of the Company’s guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Company share of Core FFO per diluted share.

	2018 Estimate	
	Low	High
Net income attributable to common stockholders	\$ 0.22	\$ 0.25
Company share of depreciation and amortization	\$ 0.92	\$ 0.92
Company share of gains on sale of real estate	\$ (0.12)	\$ (0.12)
Company share of Core FFO	\$ 1.02	\$ 1.05

Net Operating Income (NOI): NOI is a non-GAAP measure, which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as total revenue from real estate operations including i) rental income, ii) tenant reimbursements and iii) other income less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have a real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable

to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of net income to NOI for our Same Property Portfolio, is set forth below.

Cash NOI: Cash NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI i) fair value lease revenue and ii) straight-line rent adjustments. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of net income to Cash NOI for our Same Property Portfolio, is set forth below.

Same Property Portfolio: Our Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly-owned by us as of January 1, 2017, and still owned by us as of March 31, 2018. Therefore, we excluded from our Same Properties Portfolio any properties that were acquired or sold during the period from January 1, 2017 through March 31, 2018. The Company's computation of same property performance may not be comparable to other REITs.

Stabilized Same Property Portfolio: Our Stabilized Same Property Portfolio represents the properties included in our Same Property Portfolio, adjusted to exclude the properties listed in the tables below that were under repositioning/lease-up during comparable years.

Stabilized Same Property Portfolio occupancy/leasing statistics, excludes vacant/unleased repositioning space at each of these properties as of the end of each reporting period. Stabilized Same Property Portfolio NOI, excludes the NOI for the entire property for all comparable periods.

Our Stabilized Same Property Portfolio excludes the following Same Property Portfolio properties that were in various stages of repositioning or lease-up during the year ended December 31, 2017 and the three months ended March 31, 2018:

12131 Western Avenue	301-445 Figueroa Street
14742-14750 Nelson Avenue	3233 Mission Oaks Boulevard
1601 Alton Parkway	3880 Valley Boulevard
18118-18120 Broadway Street	679-691 South Anderson Street
228th Street	9615 Norwalk Boulevard
2700-2722 Fairview Street	

As of March 31, 2018, the difference between our Same Property Portfolio and our Stabilized Same Property Portfolio is 376,385 rentable square feet of space at five of our properties that were classified as repositioning or lease-up. As of March 31, 2017, the difference between our Same Property Portfolio and our Stabilized Same Property Portfolio is space aggregating 534,924 rentable square feet at nine of our properties that were in various stages of repositioning or lease-up.

Properties and Space Under Repositioning: Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. We define a significant amount of space in a building as the lower of (i) 20,000 square feet of space or (ii) 50% of a building's square footage. Typically, we would include properties or space where the repositioning and lease-up time frame is estimated to be greater than six months. A repositioning is considered complete once the investment is fully or nearly fully deployed and the property is marketable for leasing. We consider a repositioning property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning construction work.

Forward Looking Statements: This supplemental package contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We caution investors that any forward-looking statements presented herein are based on management's beliefs and assumptions and information currently available to management. Such statements are subject to risks, uncertainties and assumptions and may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. These risks and uncertainties include, without limitation: general risks affecting the real estate industry (including, without limitation, the market value of our properties, the inability to enter into or renew leases at favorable rates, dependence on tenants' financial condition, and competition from other developers, owners and operators of real estate); risks associated with the disruption of credit markets or a global economic slowdown; risks associated with the potential loss of key personnel (most importantly, members of senior management); risks associated with our failure to maintain our status as a Real Estate Investment Trust under the Internal Revenue Code of 1986, as amended; possible adverse changes in tax and environmental laws; litigation, including costs associated with prosecuting or defending pending or threatened claims and any adverse outcomes, and potential liability for uninsured losses and environmental contamination.

For a further discussion of these and other factors that could cause our future results to differ materially from any forward-looking statements, see Item 1A. Risk Factors in our 2017 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission ("SEC") on February 21, 2018. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

Total Consolidated:			3.392%	\$662,425	

(1) Includes the effect of interest rate swaps effective as of March 31, 2018, and excludes the effect of discounts, deferred loan costs and the facility fee.

(2) One additional one-year extension is available, provided that certain conditions are satisfied.

(3) The applicable LIBOR margin ranges from 1.10% to 1.50% per annum for the revolving credit facility, 1.20% to 1.70% per annum for the \$100M term loan facility and 1.20% to 1.70% per annum for the \$225M term loan facility depending on the ratio of our outstanding consolidated indebtedness to the value of our consolidated gross asset value (measured on a quarterly basis). As a result, the effective interest rate will fluctuate from period to period.

(4) We have an interest rate swap that will effectively fix the \$100 million term loan facility at 1.764% plus an applicable LIBOR margin from December 14, 2018 (the expiration date of the current swap) through August 14, 2021.

(5) The credit facility is subject to a facility fee which is calculated as a percentage of the total commitment amount, regardless of usage. The facility fee ranges from 0.15% to 0.30% per annum depending on the ratio of our outstanding consolidated indebtedness to the value of our consolidated gross asset value, which is measured on a quarterly basis.

(6) Two additional six-month extensions are available, provided that certain conditions are satisfied.

(7) We have an interest rate swap that will effectively fix \$100 million of this \$225 million term loan at 1.406% plus an applicable LIBOR margin from August 14, 2018 through January 14, 2022.

Debt Composition:

Category	Weighted Average Term Remaining (yrs)(1)	Stated Interest Rate	Effective Interest Rate	Balance	% of Total

(1) GAAP and cash rent statistics and turnover costs for new leases exclude 10 leases aggregating 113,185 rentable square feet for which there was no comparable lease data. Of these 10 excluded leases, four leases aggregating 35,282 rentable square feet relate to repositioning properties. Comparable leases generally exclude: (i) space that has never been occupied under our ownership, (ii) repositioned/redeveloped space, (iii) space that has been vacant for over one year or (iv) lease terms shorter than six months.

(2) GAAP and cash rent statistics and turnover costs for renewal leases excludes one lease for 1,205 rentable square feet for which there was no comparable lease data, due to either (i) space with different lease structures or (ii) lease terms shorter than six months.

(3) Turnover costs include estimated tenant improvement and leasing costs associated with leases executed during the current period.

(4) Reflects the square footage of renewal and new leases, respectively, that have been signed but have not yet commenced as of March 31, 2018.

(5) Includes \$692 thousand of annualized base rent under Uncommenced New Leases and \$759 thousand of incremental annualized base rent under Uncommenced Renewal Leases.

(1) For tenant improvements and leasing commissions, reflects the aggregate square footage of the leases in which we incurred such costs, excluding new/renewal leases in which there were no tenant improvements and/or leasing commissions. For recurring capex, reflects the weighted average square footage of our consolidated portfolio for the period (including properties that were sold during the period). For nonrecurring capex, reflects the aggregate square footage of the properties in which we incurred such capital expenditures.

(2) Includes capital expenditures related to properties that were under development or repositioning as of March 31, 2018. For details on these properties see pages 20-21.

(3) Includes capital expenditures related to other space under repositioning or renovation that are not included on pages 20-21 due to smaller space size or limited downtime for completion.

(4) Includes other nonrecurring capital expenditures including, but not limited to, costs incurred for replacements of either roof or parking lots, and ADA related construction.

(5) Includes the following capitalized costs: (i) compensation costs of personnel directly responsible for and who spend their time on development, renovation and rehabilitation activity and (ii) interest, property taxes and insurance costs incurred during the development and construction periods of repositioning or development projects.

(1) See page 27 for a definition of Properties and Space Under Repositioning.

(2) Represents the estimated rentable square footage upon completion of current and future development projects.

(3) Represents the estimated remaining number of months, as of March 31, 2018, for the property to reach stabilization. Includes time to complete construction and lease-up the property. Actual number of months required to reach stabilization may vary materially from our estimates. See page 27 for a definition of Stabilization Date - Properties and Space Under Repositioning.

(4) Projected total investment includes the purchase price of the property and our current estimate of total expected nonrecurring capital expenditures to be incurred on each repositioning and development project to reach completion. We expect to update our estimates upon completion of the project, or sooner if there are any significant changes to expected costs from quarter to quarter.

(5) Cumulative investment-to-date includes the purchase price of the property and subsequent costs incurred for nonrecurring capital expenditures.

(6) Represents the actual cash NOI for each property for the three months ended March 31, 2018. For a definition/discussion of non-GAAP financial measures, see the definitions section beginning on page 25 of this report.

(7) Represents managements estimate of each property's annual cash NOI once the property has reached stabilization and initial rental concessions, if any, have elapsed. Actual results may vary materially from our estimates. The Company does not provide a reconciliation to net income on a consolidated basis, because it is unable to provide a meaningful or accurate estimation of reconciling items due to the inherent difficulty of forecasting the timing and/or amount of various items that would impact net income.

(8) All 14 units at 301-445 Figueroa are being repositioned in various phases. As of March 31, 2018, the property consists of: five units (57,220 RSF) that have been completed and leased; five units (45,240 RSF) that have been completed and are vacant; one unit (6,960 RSF) that is currently undergoing repositioning; and three units (24,230 RSF) in which repositioning has not yet started. We estimate that the latter four units (31,190 RSF) will be completed by the end of 3Q-2018. The projected total investment and estimated annual stabilized Cash NOI presented above reflect the repositioning of all 14 units.

(9) Actual NOI for the three months ended March 31, 2018, reflects the capitalization of \$175 thousand of real estate property taxes and insurance for current repositioning and \$3 thousand for lease-up properties. respectively. We will continue to capitalize taxes and insurance during the period in which construction is taking place to get each repositioning property ready for its intended use.

- (1) Our Net income and Core FFO guidance refers to the Company's in-place portfolio as of May 1, 2018, and does not include any assumptions for acquisitions, dispositions or balance sheet activities that may or may not occur later during the year. The Company's in-place portfolio as of May 1, 2018, reflects the acquisition of five properties totaling 372,691 rentable square feet and the disposition of one property containing 11,808 rentable square feet that occurred subsequent to March 31, 2018.
- (2) See page 28 for a reconciliation of the Company's guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Core FFO per diluted share.
- (3) Our Same Property Portfolio is a subset of our consolidated portfolio and consists of 127 properties aggregating 14,100,476 rentable square feet that were wholly-owned by us as of January 1, 2017, and still owned by us as of March 31, 2018. Our Stabilized Same Property Portfolio represents the properties included in our Same Property Portfolio, adjusted to exclude 11 of our properties that were or will be in various stages of repositioning (current and future) or lease-up during 2017 and 2018. See page 27 for the definition of Stabilized Same Property Portfolio which includes a list of these 11 properties.
- (4) Our general and administrative expense guidance includes estimated non-cash equity compensation expense of \$6.8 million.

* A number of factors could impact the Company's ability to deliver results in line with its guidance, including, but not limited to, interest rates, the economy, the supply and demand of industrial real estate, the availability and terms of financing to potential acquirers of real estate and the timing and yields for divestment and investment. There can be no assurance that the Company can achieve such results.

(1) For a definition and discussion of non-GAAP financial measures, see the notes and definitions section beginning on page 25 of this report.

(2) Represents the estimated incremental base rent from uncommenced new and renewal leases as if they had commenced as of January 1, 2018.

(3) Represents the estimated incremental NOI from Q1'18 acquisitions as if they had been acquired on January 1, 2018. We have made a number of assumptions in such estimates and there can be no assurance that we would have generated the projected levels of NOI had we actually owned the acquired entities as of January 1, 2018.

(4) Represents the actual Q1'18 NOI for properties sold during the current quarter. See page 22 for details related to current year disposition properties.

(5) Represents the estimated incremental NOI from the properties that were classified as current or future repositioning or lease-up during the three months ended March 31, 2018, assuming that all repositioning work had been completed and all of the properties/space were fully stabilized as of January 1, 2018. See pages 20-21 for the properties included. We have made a number of assumptions in such estimates and there can be no assurance that we would have generated the projected levels of NOI had these properties actually been stabilized as of January 1, 2018.

(6) Excludes unamortized loan discount and debt issuance costs totaling \$3.0 million.

(7) Represents outstanding shares of common stock of the Company, which excludes 226,451 shares of unvested restricted stock.

Includes 157,5390 vested LTIP Units and excludes 305,894 unvested LTIP Units and 703,248 unvested performance units.

Adjusted Funds from Operations (“AFFO”): We calculate adjusted funds from operations, or AFFO, by adding to or subtracting from FFO, as defined below, the following items: (i) certain non-cash operating revenues and expenses, (ii) capitalized operating expenditures such as leasing and construction payroll, (iii) recurring capital expenditures required to maintain and re-tenant our properties, (iv) capitalized interest costs resulting from the repositioning/redevelopment of certain of our properties, (v) 2nd generation tenant improvements and leasing commissions and (vi) gain (loss) on extinguishment of debt. Management uses AFFO as a supplemental performance measure because it provides a performance measure that, when compared year over year, captures trends in portfolio operating results. We also believe that, as a widely recognized measure of the performance of REITs, AFFO will be used by investors as a basis to assess our performance in comparison to other REITs. However, because AFFO may exclude certain non-recurring capital expenditures and leasing costs, the utility of AFFO as a measure of our performance is limited. Additionally, other Equity REITs may not calculate AFFO using the method we do. As a result, our AFFO may not be comparable to such other Equity REITs’ AFFO. AFFO should be considered only as a supplement to net income (as computed in accordance with GAAP) as a measure of our performance.

In-Place Annualized Base Rent and Uncommenced Annualized Base Rent:

- **In-Place Annualized Base Rent (“In-Place ABR”):** Calculated as the monthly contractual base rent (before rent abatements) per the terms of the lease, as of March 31, 2018, multiplied by 12. Includes only leases that have commenced as of March 31, 2018. Excludes billboard and antenna revenue and tenant reimbursements.
- **In-Place ABR per Square Foot:** Calculated by dividing In-Place ABR for the lease by the occupied square feet of the lease, as of March 31, 2018.
- **Combined In-Place and Uncommenced Annualized Base Rent (“In-Place + Uncommenced ABR”):** Calculated by adding (i) In-Place ABR and (ii) ABR Under Uncommenced Leases (see definition below). Does not include adjustments for leases that expired and were not renewed subsequent to March 31, 2018, or adjustments for future known non-renewals.
- **ABR Under Uncommenced Leases:** Calculated by adding the following:
 - (i) ABR under Uncommenced New Leases = first full month of contractual base rents (before rent abatements) to be received under Uncommenced New Leases, multiplied by 12.
 - (ii) Incremental ABR under Uncommenced Renewal Leases = difference between: (a) the first full month of contractual base rents (before rent abatements) to be received under Uncommenced Renewal Leases and (b) the monthly In-Place ABR for the same space as of March 31, 2018, multiplied by 12.
- **In-Place + Uncommenced ABR per Square Foot:** Calculated by dividing (i) In-Place + Uncommenced ABR for the leases by (ii) the square footage under commenced and uncommenced leases (net of renewal space) as of March 31, 2018.
- **Uncommenced New Leases:** Reflects new leases (for vacant space) that have been signed but have not yet commenced as of March 31, 2018.
- **Uncommenced Renewal Leases:** Reflects renewal leases (for space occupied by renewing tenant) that have been signed but have not yet commenced as of March 31, 2018.

Capital Expenditures, Non-recurring: Expenditures made in respect of a property for improvement to the appearance of such property or any other major upgrade or renovation of such property, and further includes capital expenditures for seismic upgrades, and capital expenditures for deferred maintenance existing at the time such property was acquired.

Capital Expenditures, Recurring: Expenditures made in respect of a property for maintenance of such property and replacement of items due to ordinary wear and tear including, but not limited to, expenditures made for maintenance of parking lot, roofing materials, mechanical systems, HVAC systems and other structural systems. Recurring capital expenditures shall not include any of the following: (a) improvements to the appearance of such property or any other major upgrade or renovation of such property not necessary for proper maintenance or marketability of such property; (b) capital expenditures for seismic upgrades; (c) capital expenditures for deferred maintenance for such property existing at the time such property was acquired; or (d) replacements of either roof or parking lots.

Capital Expenditures, First Generation: Capital expenditures for newly acquired space, newly developed or redeveloped space, or change in use.

Cash NOI: Cash basis NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI (i) fair value lease revenue and (ii) straight-line rent adjustment. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

Core Funds from Operations (“Core FFO”): We calculate Core FFO by adjusting FFO, as defined below, to exclude the impact of certain items that we do not consider reflective of our core revenue or expense streams. For the periods presented, Core FFO adjustments consisted of acquisition expenses. Management believes that Core FFO is a useful supplemental measure as it provides a more meaningful and consistent comparison of operating performance and allows investors to more easily compare the Company’s operating results. Because these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs’ core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance.

Our actual performance for each covenant is calculated based on the definitions set forth in each loan agreement.

EBITDAre and Adjusted EBITDA: We calculate EBITDAre in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). EBITDAre is calculated as net income (loss) (computed in accordance with GAAP), before interest expense, tax expense, depreciation and amortization, gains (or losses) from sales of depreciable operating property, impairment losses and adjustments to reflect our proportionate share of EBITDAre from our unconsolidated joint venture. We calculate Adjusted EBITDA by adding or subtracting from EBITDAre the following items: (i) non-cash stock based compensation expense, (ii) gain (loss) on extinguishment of debt, (iii) acquisition expenses and (iv) the pro-forma effects of acquisitions and dispositions. We believe that EBITDAre and Adjusted EBITDA are helpful to investors as a supplemental measure of our operating performance as a real estate company because it is a direct measure of the actual operating results of our industrial properties. We also use these measures in ratios to compare our performance to that of our industry peers. In addition, we believe EBITDAre and Adjusted EBITDA are frequently used by securities analysts, investors and other interested parties in the evaluation of Equity REITs. However, because EBITDAre and Adjusted EBITDA are calculated before recurring cash charges including interest expense and income taxes, and are not adjusted for capital expenditures or other recurring cash requirements of our business, their utility as a measure of our liquidity is limited. Accordingly, EBITDAre and Adjusted EBITDA should not be considered alternatives to cash flow from operating activities (as computed in accordance with GAAP) as a measure of our liquidity. EBITDAre and Adjusted EBITDA should not be considered as alternatives to net income or loss as an indicator of our operating performance. Other Equity REITs may calculate EBITDAre and Adjusted EBITDA differently than we do; accordingly, our EBITDAre and Adjusted EBITDA may not be comparable to such other Equity REITs' EBITDAre and Adjusted EBITDA. EBITDAre and Adjusted EBITDA should be considered only as

supplements to net income (as computed in accordance with GAAP) as a measure of our performance.

Funds from Operations ("FFO"): We calculate FFO in accordance with the standards established by NAREIT. FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, impairment losses, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe

that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity, and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance.

Net Operating Income ("NOI"): NOI is a non-GAAP measure which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as total revenue from real estate operations including i) rental income, ii) tenant reimbursements, and iii) other income less property expenses. We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense, general and administrative expenses, interest expense, gains (or losses) on sale of real estate and other non-operating items, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

Proforma NOI: Proforma NOI is calculated by adding to NOI the following adjustments: (i) the estimated impact on NOI of uncommenced leases as if they had commenced at the beginning of the reportable period, (ii) the estimated impact on NOI of current period acquisitions as if they had been acquired at the beginning of the reportable period, (iii) the actual NOI of properties sold during the current period and (iv) the estimated incremental NOI from properties that were classified as repositioning/lease-up properties as of the end of the reporting period, assuming that all repositioning work had been completed and the properties/space were fully stabilized as of the beginning of the reportable period. These estimates do not purport to be indicative of what operating results would have been had the transactions actually occurred at the beginning of the reportable period and may not be indicative of future operating results.

Properties and Space Under Repositioning: Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. We define a significant amount of space in a building as the lower of (i) 20,000 square feet of space or (ii) 50% of a building's square footage. Typically, we would include properties or space where the repositioning and lease-up time frame is estimated to be greater than six months. A repositioning is considered

complete once the investment is fully or nearly fully deployed and the property is marketable for leasing.

Rent Change - Cash: Compares the first month cash rent excluding any abatement on new leases to the last month rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude: (i) space that has never been occupied under our ownership, (ii) repositioned/redeveloped space, (iii) space that has been vacant for over one year, (iv) space with different lease structures (for example a change from a gross lease to a modified gross lease or an increase or decrease in the leased square footage) or (v) lease terms shorter than six months.

Rent Change - GAAP: Compares GAAP rent, which straightlines rental rate increases and abatements, on new leases to GAAP rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude: (i) space that has never been occupied under our ownership, (ii) repositioned/redeveloped space, (iii) space that has been vacant for over one year, (iv) space with different lease structures (for example a change from a gross lease to a modified gross lease or an increase or decrease in the leased square footage) or (v) lease terms shorter than six months.

Same Property Portfolio: Our Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly-owned by us as of January 1, 2017, and still owned by us as of March 31, 2018. The Company's computation of same property performance may not be comparable to other REITs.

Stabilization Date - Properties and Space Under Repositioning: We consider a repositioning property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning construction work.

Stabilized Same Property Portfolio: Our Stabilized Same Property Portfolio represents the properties included in our Same Property Portfolio, adjusted to exclude the properties listed in the table below that were under repositioning/lease-up during comparable years. Stabilized Same Property Portfolio occupancy/leasing statistics exclude vacant/unleased repositioning space at each of these properties as of the end of each reporting period. Stabilized Same Property Portfolio NOI excludes the NOI for the entire property for all comparable periods.

Our Stabilized Same Property Portfolio excludes the following Same Property Portfolio properties aggregating 1,544,022 rentable square feet that were or will be in various stages of repositioning or lease-up during 2017 and 2018:

12131 Western Avenue	301-445 Figueroa Street
14742-14750 Nelson Avenue	3233 Mission Oaks Boulevard
