**Los Angeles, California - February 16, 2017** - Rexford Industrial Realty, Inc. (the "Company" or "Rexford Industrial") (NYSE: REXR), a real estate investment trust ("REIT") that specializes in acquiring, owning and operating industrial properties located in Southern California infill markets, today announced financial results for the fourth quarter and full year 2016.

### Fourth Quarter and Full Year 2016 Financial and Operational Highlights:

- Net income attributable to common stockholders of \$0.10 per diluted share for the quarter ended December 31, 2016.
- Core Funds From Operations (FFO) of \$0.23 per diluted share for the quarter ended December 31, 2016. Adjusting for non-core expenses, FFO was \$0.23 per diluted share for the quarter ended December 31, 2016.
- Total fourth quarter rental revenues of \$34.4 million, which represents an increase of 32.2% year-over-year. Property Net Operating Income (NOI) of \$25.3 million, which represents an increase of 33.6% year-over-year.
- Same Property Portfolio NOI increased 9.1% in the fourth quarter of 2016 compared to the fourth quarter of 2015, driven by a 7.8% increase in Same Property Portfolio total rental revenue and a 4.6% increase in Same Property Portfolio operating expenses. Same Property Portfolio Cash NOI increased 9.1% compared to the fourth quarter of 2015.
- Signed new and renewal leases totaling 764,682 rentable square feet. Rental rates on new and renewal leases were 16.1% higher than prior rents on a GAAP basis and 5.9% higher on a cash basis.
- Stabilized Same Property Portfolio occupancy was 96.9%, which represents an increase of 360 basis points year-over-year. Same Property Portfolio occupancy was 96.1%, which represents an increase of 310 basis points year-over-year.
- At December 31, 2016, the consolidated portfolio including repositioning assets was 91.8% leased and 91.7% occupied, which represents an increase in occupancy of 250 basis points year-over-year. At December 31, 2016, the consolidated portfolio, excluding repositioning assets aggregating 794,647 rentable square feet, was 97.0% leased and 96.8% occupied.
- During the fourth quarter of 2016, the Company acquired four industrial properties for an aggregate purchase price of \$60.2 million. For the full year, the Company acquired 20 properties for an aggregate purchase price of \$371.7 million.
- During the fourth quarter of 2016, the Company sold two industrial properties for an aggregate sales price of \$19.0 million. For the full year, the Company sold five industrial properties for an aggregate sales price of \$40.7 million.

"We are pleased with our strong fourth quarter and full year 2016 results, which included a 360 basis point year-over-year increase in Stabilized Same Property Portfolio occupancy to 96.9% and a 9.1% increase in Same Property NOI over the prior year period," stated Michael Frankel and Howard Schwimmer, Co-Chief Executive Officers of the Company. "We continued to execute on our growth initiatives during 2016, acquiring nearly \$372 million of high-quality and accretive investments, adding another 3.4 million square feet to our best-in-class industrial portfolio. We believe our Company is exceptionally well-positioned to capitalize upon the strong organic growth embedded within our portfolio as we complete and lease-up our value-add repositioning spaces and continue to drive strong re-leasing spreads, supported by historically high market occupancy and a scarcity of available product for lease. We see a substantial runway ahead to deploy our value-driven internal and external growth strategies to generate favorable FFO per share growth and shareholder value."

#### **Financial Results:**

The Company reported net income attributable to common stockholders of \$6.9 million, or \$0.10 per diluted share, for the three months ended December 31, 2016, as compared to net income attributable to common stockholders of \$0.9 million, or \$0.02 per diluted share, for the three months ended December 31, 2015.

The Company reported net income attributable to common stockholders of \$22.8 million, or \$0.36 per diluted share, for the year ended December 31, 2016, as compared to net income attributable to common stockholders of \$1.7 million, or \$0.03 per diluted share, for the year ended December 31, 2015. Net income for the year ended December 31, 2016, included \$17.4 million of gains on sale of real estate, for which there was no comparable amount for the year ended December 31, 2015.

The Company reported Company share of Core FFO of \$15.0 million, or \$0.23 per diluted share of common stock, for the three months ended December 31, 2016, as compared to Company share of Core FFO of \$11.9 million, or \$0.21 per diluted share of common stock, for the three months ended December 31, 2015. Adjusting for net non-core expenses and reimbursements (\$0.0 million reported during the fourth quarter of 2016 and \$0.5 million reported during the fourth quarter of 2015), Company share of FFO was \$15.1 million, or \$0.23 per diluted share of common stock, as compared to Company share of FFO of \$11.4 million, or \$0.21 per diluted share of common stock, for the three months ended December 31, 2015.

The Company reported Company share of Core FFO of \$55.2 million, or \$0.88 per diluted share of common stock, for the year ended December 31, 2016, as compared to Company share of Core FFO of \$44.2 million, or \$0.82 per diluted share of common stock, for the year ended December 31, 2015. Adjusting for non-core expenses (\$0.8 million reported during the year ended December 31, 2016, and \$2.5 million during the year ended December 31, 2015), Company share of FFO was \$54.4 million, or \$0.86 per diluted share of common stock, as compared to Company share of FFO of \$41.9 million, or \$0.77 per diluted share of common stock, for the year ended December 31, 2015.

For the three months ended December 31, 2016, the Company's Same Property Portfolio NOI increased 9.1% compared to the fourth quarter of 2015, driven by a 7.8% increase in Same Property Portfolio total rental revenue, and a 4.6% increase in Same Property Portfolio expenses. Same Property Portfolio Cash NOI increased 9.1% compared to the fourth quarter 2015.

#### **Operating Results:**

In the fourth quarter of 2016, the Company signed 98 new and renewal leases in its consolidated portfolio, totaling 764,682 rentable square feet. Average rental rates on comparable new and renewal leases were up 16.1% on a GAAP basis and up 5.9% on a cash basis. The Company signed 48 new leases for 401,081 rentable square feet, with GAAP rents up 18.0% compared to the prior in-place leases. The Company signed 50 renewal leases for 363,601 rentable square feet, with GAAP rents up 15.5% compared to the prior in-place leases. For the 48 new leases, cash rents were up 9.0%, and for the 50 renewal leases, cash rents were up 5.0%, compared to the ending cash rents for the prior leases.

The Company has included in a supplemental information package the detailed results and operating statistics that reflect the activities of the Company for the three months ended December 31, 2016. See below for information regarding the supplemental information package.

**Transaction Activity:**

In the fourth quarter 2016, the Company acquired four industrial properties, for an aggregate purchase price of \$60.2 million, as detailed below.

In October 2016, the Company acquired 3927 Oceanic Drive, an industrial building containing 54,740 square feet in the North San Diego submarket for \$7.2 million, or approximately \$132 per square foot.

In November 2016, the Company acquired 301-445 N. Figueroa Street, a multi-tenant industrial building containing 133,925 square feet in the Los Angeles South Bay submarket for \$13.0 million, or approximately \$97 per square foot.

In December 2016, the Company acquired 12320 4th Street, a two-building industrial property containing 284,676 square feet in the Inland Empire West submarket, for \$24.4 million, or approximately \$86 per square foot.

In December 2016, the Company acquired 9190 Activity Road, an industrial facility in the Central San Diego submarket for \$15.6 million, or approximately \$186 per square foot.

In November 2016, the Company sold 2343-22349 La Palma Avenue, a four-building industrial property containing 115,760 square feet in the North Orange County submarket for \$17.0 million, or approximately \$147 per square foot.

In November 2016, the Company sold 331 East 157th Street, an industrial building containing 12,000 square feet in the Los Angeles South Bay submarket for \$1.98 million, or approximately \$165 per square foot.

**Balance Sheet:**

As of December 31, 2016, the Company had \$502.5 million of outstanding debt, with an average interest rate of 3.291% and an average term-to-maturity of 5.3 years. As of December 31, 2016, approximately \$277 million, or 55%, of the Company's outstanding debt was fixed-rate with an average interest rate of 3.92% and an average term-to-maturity of 4.8 years. The remaining \$225 million, or 45%, of the Company's outstanding debt was floating-rate, with an average interest rate of LIBOR + 1.75% and an average term-to-maturity of 6.0 years. During 2016, the Company executed two interest rate swaps to hedge the remaining \$225 million of floating-rate debt beginning in 2018 when the swaps become effective. If these two interest rate swaps were effective as of December 31, 2016, then 100% of the Company's debt would be effectively fixed.

**Guidance**

The Company is introducing its full year 2017 guidance for Company share of Core FFO at a range of \$0.91 to \$0.94 per diluted share of common stock. This Core FFO guidance refers only to the Company's in-place portfolio as of January 1, 2017, and does not include any assumptions for acquisitions, dispositions or balance sheet activities that may or may not occur later during the year. Full year guidance assumes the following: year-end Same Property Portfolio occupancy within a range of 93% to 95%, year-end Stabilized Same Property Portfolio occupancy within a range of 96% to 98%, Same Property Portfolio NOI growth for the year of 6% to 8% and general & administrative expenses of \$20.0 million to \$20.5 million.

The Company does not provide a reconciliation for its guidance range of Core FFO per diluted share to net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, because it is impractical to provide a meaningful or accurate estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and/or amount of various items that would impact net income available to common stockholders per diluted share, including, for example, acquisition costs, gains on sales of depreciable real estate and other items that have not yet occurred and are out of the Company's control. For the same reasons, the Company is unable to address the probable significance of the unavailable information and believes that providing a reconciliation for its guidance range of Core FFO per diluted share would imply a degree of precision as to its forward-looking net income available to common stockholders per diluted share that would be confusing or misleading to investors.

**Dividend:**

On February 14, 2017, the Board of Directors declared a dividend of \$0.145 per share for the first quarter of 2017, payable in cash on April 17, 2017, to common stockholders and common unit holders of record as of March 31, 2017. On February 14, 2017, the Board of Directors declared a cash dividend of \$0.36719 per share payable to its Series A Cumulative Redeemable Preferred stockholders, payable in cash on March 31, 2017, to stockholders of record as of March 15, 2017.

**Supplemental Information:**

Details regarding these results can be found in the Company's supplemental financial package available on the Company's investor relations website at [www.ir.rexfordindustrial.com](http://www.ir.rexfordindustrial.com).

**Earnings Release, Investor Conference Webcast and Conference Call:**

The Company will host a webcast and conference call on Thursday, February 16, 2017, at 5:00 p.m. Eastern Time to review fourth quarter and full year results and discuss recent events. **Forward Looking Statements:**

This press release may contain forward-looking statements within the meaning of the federal securities laws, which are based on current expectations, forecasts and assumptions that involve risks and uncertainties that could cause actual outcomes and results to differ materially. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," or "potential" or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. While forward-looking statements reflect the Company's good faith beliefs, assumptions and expectations, they are not guarantees of future performance. For a further discussion of these and other factors that could cause the Company's future results to differ materially from any forward-looking statements, see the reports and other filings by the Company with the U.S. Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2015, and subsequent filings with the Securities and Exchange Commission. The Company disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

## Definitions / Discussion of Non-GAAP Financial Measures:

**Funds from Operations (FFO):** We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, impairment losses, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity, and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to FFO is set forth below.

**Core Funds from Operations (Core FFO):** We calculate Core FFO by adjusting FFO to exclude the impact of certain items that we do not consider reflective of our core revenue or expense streams. These adjustments consist of acquisition expenses and legal expenses or reimbursements related to prior litigation. For more information on prior litigation, see Item 3. Legal Proceedings in our 2014 Annual Report on Form 10-K. Management believes that Core FFO is a useful supplemental measure as it provides a more meaningful and consistent comparison of operating performance and allows investors to more easily compare the Company's operating results. Because certain of these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs' Core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of FFO to Core FFO is set forth below.

**Net Operating Income (NOI):** NOI is a non-GAAP measure, which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as total revenue from real estate operations including i) rental revenues, ii) tenant reimbursements and iii) other income less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of NOI for our Same Property Portfolio to net income, is set forth below.

**Cash NOI:** Cash NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI i) fair value lease revenue and ii) straight-line rent adjustments. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of Cash NOI for our Same Property Portfolio to net income, is set forth below.

**Same Property Portfolio:** Our Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly-owned by us as of January 1, 2015, and still owned by us as of December 31, 2016. Therefore, we excluded from our Same Properties Portfolio any properties that were acquired or sold during the period from January 1, 2015 through December 31, 2016. The Company's computation of same property performance may not be comparable to other REITs.

**Stabilized Same Property Portfolio:** Our Stabilized Same Property Portfolio represents the properties included in our Same Property Portfolio, adjusted to exclude space at properties that were in various stages of repositioning (defined below) or lease-up in connection with a completed repositioning. As of December 31, 2016, space aggregating 73,366 rentable square feet at three of our Same Property Portfolio properties were in various stages of repositioning or lease-up in connection with a completed repositioning.

**Properties and Space Under Repositioning:** Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. We define a significant amount of space in a building as the lower of (i) 20,000 square feet of space or (ii) 50% of a building's square footage. Typically, we would include properties or space where the repositioning and lease-up time frame is estimated to be greater than six months. A repositioning is considered complete once the investment is fully or nearly fully deployed and the property is marketable for leasing. We consider a property to be stabilized once it reaches 95% occupancy.

## Disclosures:

Forward Looking Statements: This supplemental package contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We caution investors that any forward-looking statements presented herein are based on management's beliefs and assumptions and information currently available to management. Such statements are subject to risks, uncertainties and assumptions and may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. These risks and uncertainties include, without limitation: general risks affecting the real estate industry (including, without limitation, the market value of our properties, the inability to enter into or renew leases at favorable rates, dependence on tenants' financial condition, and competition from other developers, owners and operators of real estate); risks associated with the disruption of credit markets or a global economic slowdown; risks associated with the potential loss of key personnel (most importantly, members of senior management); risks associated with our failure to maintain our status as a Real Estate Investment Trust under the Internal Revenue Code of 1986, as amended; possible adverse changes in tax and environmental laws; litigation, including costs associated with prosecuting or defending pending or threatened claims and any adverse outcomes, and potential liability for uninsured losses and environmental contamination.

For a further discussion of these and other factors that could cause our future results to differ materially from any forward-looking statements, see Item 1A. Risk Factors in our 2015 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission ("SEC") on February 25, 2016. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

<b>Total Consolidated:</b>			<u>3.291%</u>	<u>\$ 502,476</u>	

(1) Includes the effect of interest rate swaps effective as of December 31, 2016, and excludes the effect of discounts/premiums, deferred loan costs and the unused commitment fee.

(2) One additional one-year extension is available, provided that certain conditions are satisfied.

(3) One additional five-year extension is available, provided that certain conditions are satisfied.

(4) The applicable LIBOR margin will range from 1.30% to 1.90% for the revolving credit facility, 1.25% to 1.85% for the \$100M term loan facility and 1.50% to 2.25% for the \$225M term loan facility depending on the ratio of our outstanding consolidated indebtedness to the value of our consolidated gross asset value, which is measured on a quarterly basis. As a result, the effective interest rate will fluctuate from period to period.

(5) The credit facility is subject to an unused commitment fee which is calculated as 0.30% or 0.20% of the daily unused commitment if the balance is under \$100M or over \$100M, respectively.

(6) We have executed two interest rate swaps that will effectively fix this \$225M term loan as follows: (i) \$125M at 1.349% plus the applicable LIBOR margin from 2/14/18 to 1/14/22 and (ii) \$100M at 1.406% plus the applicable LIBOR margin from 8/14/18 to 1/14/22.

## Debt Composition:

Category	Avg. Term Remaining (yrs) <sup>(1)</sup>	Stated Interest Rate	Effective Interest Rate	Balance	% of Total
Fixed <sup>(2)</sup>	4.8	3.92%	3.92%	\$277,476	55%

(1) Excludes space aggregating 794,647 square feet at seven of our properties that were in various stages of repositioning or lease-up in connection with a completed repositioning as of December 31, 2016. See pages 25-26 for additional details on these properties.

(2) Calculated for each property as monthly contracted base rent per the terms of the lease(s) at such property, as of December 31, 2016, multiplied by 12 and then multiplied by our ownership interest for such property, and then aggregated by market. Excludes billboard and antenna revenue and rent abatements.

(1) GAAP and cash rent statistics for new leases exclude 16 leases aggregating 317,839 rentable square feet for which there was no comparable lease data. Of these 16 excluded leases, five leases aggregating 119,850 rentable square feet relate to recently completed repositioning/lease-up projects and one lease with 100,000 rentable square feet is a four month short-term lease. Comparable leases generally exclude: (i) space that has never been occupied under our ownership, (ii) repositioned/redeveloped space, (iii) space that has been vacant for over one year, (iv) space with different lease structures (for example a change from a gross lease to a modified gross lease or a increase or decrease in the leased square footage) or (v) lease terms shorter than six months.

(2) GAAP and cash statistics for renewal leases exclude 4 leases aggregating 11,784 rentable square feet for which there was no comparable lease data, due to either (i) space with different lease structures or (ii) lease terms shorter than six months.

(1) See page 32 for a definition of Properties and Space Under Repositioning.

(2) Cumulative investment-to-date includes the purchase price of the property and subsequent costs incurred for nonrecurring capital expenditures.

(3) Projected total investment includes the purchase price of the property and an estimate of total expected nonrecurring capital expenditures to be incurred on each repositioning project to reach completion.

(4) Represents the actual cash NOI for each property for the three months ended December 31, 2016. For a definition and discussion of non-GAAP financial measures, see the definitions section beginning on page 31 of this report.

(5) Represents management's estimate of each property's cash NOI upon stabilization. Actual results may vary materially from our estimates. The Company does not provide a reconciliation to net income on a consolidated basis, because it is unable to provide a meaningful or accurate estimation of reconciling items due to the inherent difficulty of forecasting the timing and/or amount of various items that would impact net income.

(6) Represents the estimated remaining number of months, as of December 31, 2016, for the property to reach stabilization. Includes time to complete construction and lease-up the property. Actual number of months required to reach stabilization may vary materially from our estimates.

(7) Represents the square footage of the existing acquired building. Upon completion of the project, the property will be approximately 200,000 square feet, which reflects an increase in square footage from the construction of two additional buildings on the excess land.

(8) Actual NOI for the three months ended December 31, 2016, reflects the capitalization of \$132 thousand of real estate property taxes and insurance for current repositioning and \$16 thousand for lease-up properties, respectively. We will continue to capitalize real estate property taxes and insurance during the period in which construction is taking place to get each repositioning property ready for its intended use.

(9) 9615 Norwalk has 10.26 acres of partially paved storage yard/industrial land that is currently under a MTM lease and generating \$79 thousand per month in short term base rent. The current projected total investment and estimated stabilized cash NOI reflects the construction and lease-up of a new approximately 200,000 square foot building.

(1) See page 32 for a definition of Properties and Space Under Repositioning.

(2) Projected total investment includes the estimated nonrecurring capital expenditures to be incurred on each repositioning project to reach completion.

(3) Represents the actual net operating income for each property for the three months ended December 31, 2016. For a definition and discussion of non-GAAP financial measures, see the definitions section beginning on page 31 of this report.

(4) Based on current management estimates. Actual results may vary materially from our estimates. The Company does not provide a reconciliation to net income on a consolidated basis, because it is unable to provide a meaningful or accurate estimation of reconciling items due to the inherent difficulty of forecasting the timing and/or amount of various items that would impact net income.

(5) Represents the estimated remaining number of months, as of December 31, 2016, for the property to reach stabilization. Includes time to complete construction and lease-up the property. Actual number of months required to reach stabilization may vary materially from our estimates.

(6) The property located at 228th Street includes eight buildings, of which three buildings aggregating 23,749 rentable square feet were under repositioning as of December 31, 2016. The amounts presented on this page represent the actual and projected construction costs and the actual and estimated stabilized cash NOI of only these three buildings.

(7) Actual NOI for the three months ended December 31, 2016, reflects the capitalization of \$6 thousand for repositioning space. We will continue to capitalize real estate property taxes and insurance during the period in which construction is taking place to get each repositioning property ready for its intended use.

(8) The property located at 18118-18120 S. Broadway includes three buildings. We plan to reposition one building with 18,033 rentable square feet when the tenant vacates in 1Q-2017. The amounts presented on this page represent the actual and projected construction costs and the actual and estimated stabilized cash NOI of this one building.

(9) We plan to reposition 107,965 rentable square feet of warehouse space at this property when the current tenant vacates in 2Q-2017. The amounts presented on this page represent the actual and projected construction costs and the actual and estimated stabilized cash NOI of this space.

(10) We are unable to provide a meaningful stabilized yield for this completed project as this was a partial repositioning (72,000 rentable square feet) of a larger property.

(1) For a definition and discussion of non-GAAP financial measures, see the definitions section beginning on page 31 of this report.

(2) Represents the estimated incremental base rent from uncommenced leases as if they had commenced as of October 1, 2016.

(3) Represents the estimated incremental NOI from Q4'16 acquisitions as if they had been acquired on October 1, 2016. We have made a number of assumptions in such estimates and there can be no assurance that we would have generated the projected levels of NOI had we actually owned the acquired entities as of October 1, 2016.

(4) Represents the actual Q4'16 NOI for properties sold during the current quarter. See page 27 for a detail of disposition properties.

(5) Represents the estimated incremental NOI from the properties that were classified as repositioning/lease-up or that were not fully stabilized as of December 31, 2016, assuming that all repositioning work had been completed and all of the properties/space were fully stabilized as of October 1, 2016. See pages 25-26 for the properties included. We have made a number of assumptions in such estimates and there can be no assurance that we would have generated the projected levels of NOI had these properties actually been stabilized as of October 1, 2016.

2017 OUTLOOK

METRIC	2017 GUIDANCE/ASSUMPTIONS
Core FFO (1)	\$0.91 to \$0.94 per share (2)
General and Administrative Expenses	\$20.0 million to \$20.5 million (3)
Year-End 2017 Same Property Portfolio Occupancy (4)	93.0% to 95.0% (5)
Year-End 2017 Stabilized Same Property Portfolio Occupancy (4)	96.0% to 98.0% (5)
Same Property Portfolio NOI Growth	6.0% to 8.0% (6)

- (1) Our Core FFO guidance refers only to the Company's in-place portfolio as of February 16, 2017, and does not include any assumptions for acquisitions, dispositions or balance sheet activities that may or may not occur later during the year.
- (2) The Company does not provide a reconciliation for its guidance range of Core FFO per diluted share to net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, because it is impractical to provide a meaningful or accurate estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and/or amount of various items that would impact net income available to common stockholders per diluted share, including, for example, acquisition costs, gains on sales of depreciable real estate and other items that have not yet occurred and are out of the Company's control. For the same reasons, the Company is unable to address the probable significance of the unavailable information and believes that providing a reconciliation for its guidance range of Core FFO per diluted share would imply a degree of precision as to its forward-looking net income available to common stockholders per diluted share that would be confusing or misleading to investors.
- (3) Our general and administrative expense guidance includes estimated non-cash equity compensation expense of \$5.1 million.
- (4) Our 2017 Same Property Portfolio is a subset of our consolidated portfolio and consists of 116 properties aggregating 11,647,542 rentable square feet that were wholly-owned by us as of January 1, 2016, and still owned by us as of December 31, 2016. Our 2017 Stabilized Same Property Portfolio represents the properties included in our 2017 Same Property Portfolio, adjusted to exclude space at eight of our properties aggregating 763,039 rentable square feet that will be in various stages of repositioning (current and future) and lease-up in connection with a completed repositioning during 2017. See pages 25-26 for additional details on these eight properties.
- (5) As of December 31, 2016, the occupancy of our 2017 Same Property Portfolio was 91.89% and the occupancy of our 2017 Stabilized Same Property Portfolio was 96.86%.
- (6) Our 2017 guidance for Same Property Portfolio NOI growth includes an estimated \$3.4 million impact on NOI from the completion and lease-up of all 2017 Same Property Portfolio properties identified on pages 25-26.

## Definitions / Discussion of Non-GAAP Financial Measures

---

**Adjusted Funds from Operations (AFFO):** We calculate adjusted funds from operations, or AFFO, by adding to or subtracting from FFO, as defined below, the following items: (i) certain non-cash operating revenues and expenses, (ii) capitalized operating expenditures such as leasing and construction payroll, (iii) recurring capital expenditures required to maintain and re-tenant our properties, (iv) capitalized interest costs resulting from the repositioning/redevelopment of certain of our properties, (v) 2nd generation tenant improvements and leasing commissions, (vi) gain (loss) on extinguishment of debt and (vii) gain from early repayment of note receivable. Management uses AFFO as a supplemental performance measure because it provides a performance measure that, when compared year over year, captures trends in portfolio operating results. We also believe that, as a widely recognized measure of the performance of REITs, AFFO will be used by investors as a basis to assess our performance in comparison to other REITs. However, because AFFO may exclude certain non-recurring capital expenditures and leasing costs, the utility of AFFO as a measure of our performance is limited. Additionally, other Equity REITs may not calculate AFFO using the method we do. As a result, our AFFO may not be comparable to such other Equity REITs' AFFO. AFFO should be considered only as a supplement to net income (as computed in accordance with GAAP) as a measure of our performance.

**Annualized Base Rent:** Calculated for each lease as the latest monthly contracted base rent per the terms of such lease multiplied by 12. Excludes billboard and antenna revenue and rent abatements.

**Capital Expenditures, Non-recurring:** Expenditures made in respect of a property for improvement to the appearance of such property or any other major upgrade or renovation of such property, and further includes capital expenditures for seismic upgrades, or capital expenditures for deferred maintenance existing at the time such property was acquired.

**Capital Expenditures, Recurring:** Expenditures made in respect of a property for maintenance of such property and replacement of items due to ordinary wear and tear including, but not limited to, expenditures made for maintenance or replacement of parking lot, roofing materials, mechanical systems, HVAC systems and other structural systems. Recurring capital expenditures shall not include any of the following: (a) improvements to the appearance of such property or any other major upgrade or renovation of such property not necessary for proper maintenance or marketability of such property; (b) capital expenditures for seismic upgrades; or (c) capital expenditures for deferred maintenance for such property existing at the time such property was acquired.

**Capital Expenditures, First Generation:** Capital expenditures for newly acquired space, newly developed or redeveloped space, or change in use.

**Cash NOI:** Cash basis NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI (i) fair value lease revenue and (ii) straight-line rent adjustment. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

**Core Funds From Operations (Core FFO):** We calculate Core FFO by adjusting FFO, as defined below, to exclude the impact of certain items that we do not consider reflective of our core revenue or expense streams. These adjustments consist of acquisition expenses and legal expenses or reimbursements related to prior litigation. For more information on prior litigation, see Item 3. Legal Proceedings in our 2014 Annual Report on Form 10-K. Management believes that Core FFO is a useful supplemental measure as it provides a more meaningful and consistent comparison of operating performance and allows investors to more easily compare the Company's operating results. Because certain of these adjustments have a real economic impact on our financial condition and results from operations, the utility of core FFO as a measure of our performance is limited. Other REITs may not calculate core FFO in a consistent manner. Accordingly, our core FFO may not be comparable to other REITs' core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance.

**EBITDA and Adjusted EBITDA:** EBITDA is calculated as earnings (net income) before interest expense, tax expense and depreciation and amortization, including our proportionate share from our unconsolidated joint venture. We calculate Adjusted EBITDA by adding or subtracting from EBITDA the following items: (i) non-cash stock based compensation expense, (ii) gains on sale of real estate (including our proportionate share from our unconsolidated joint venture), (iii) gain (loss) on extinguishment of debt, (iv) gain from early repayment of note receivable, (v) legal expenses or reimbursements related to prior litigation, (vi) acquisition expenses and (vii) the pro-forma effects of acquisitions and dispositions. We believe that EBITDA and Adjusted EBITDA are helpful to investors as a supplemental measure of our operating performance as a real estate company because it is a direct measure of the actual operating results of our industrial properties. We also use these measures in ratios to compare our performance to that of our industry peers. In addition, we believe EBITDA and Adjusted EBITDA are frequently used by securities analysts, investors and other interested parties in the evaluation of Equity REITs. However, because EBITDA and Adjusted EBITDA are calculated before recurring cash charges including interest expense and income taxes, and are not adjusted for capital expenditures or other recurring cash requirements of our business, their utility as a measure of our liquidity is limited. Accordingly, EBITDA and Adjusted EBITDA should not be considered alternatives to cash flow from operating activities (as computed in accordance with GAAP) as a measure of our liquidity. EBITDA and Adjusted EBITDA should not be considered as alternatives to net income or loss as an indicator of our operating performance. Other Equity REITs may calculate EBITDA and Adjusted EBITDA differently than we do; accordingly, our EBITDA and Adjusted EBITDA may not be comparable to such other Equity REITs' EBITDA and Adjusted EBITDA. EBITDA and Adjusted EBITDA should be considered only as supplements to net income (as computed in accordance with GAAP) as a measure of our performance.

## Definitions / Discussion of Non-GAAP Financial Measures

---

**Funds from Operations (FFO):** We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity, and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance.

**Net Operating Income (NOI):** NOI is a non-GAAP measure which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as total revenue from real estate operations including i) rental revenues ii) tenant reimbursements, and iii) other income less property-level operating expenses. We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense, general and administrative expenses, interest expense, gains (or losses) on sale of real estate and other non-operating items, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

**Proforma NOI:** Proforma NOI is calculated by adding to NOI the following adjustments: (i) the estimated impact on NOI of uncommenced leases as if they had commenced as the beginning of the reportable period, (ii) the estimated impact on NOI of current period acquisitions as if they had been acquired at the beginning of the reportable period, (iii) the actual NOI of properties sold during the current period and (iv) the estimated incremental NOI from properties that were classified as repositioning/lease-up properties as of the end of the reporting period, assuming that all repositioning work had been completed and the properties/space were fully stabilized as of the beginning of the reportable period. These estimates do not purport to be indicative of what operating results would have been had the acquisitions actually occurred at the beginning of the reportable period and may not be indicative of future operating results.

**Properties and Space Under Repositioning:** Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. We define a significant amount of space in a building as the lower of (i) 20,000 square feet of space or (ii) 50% of a building's square footage. Typically, we would include properties or space where the repositioning and lease-up time frame is estimated to be greater than six months. A repositioning is considered complete once the investment is fully or nearly fully deployed and the property is marketable for leasing. We consider a property to be stabilized once it reaches 95% occupancy.

**Rent Change - Cash:** Compares the first month cash rent excluding any abatement on new leases to the last month rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude properties under repositioning, short-term leases, and space that has been vacant for over one year.

**Rent Change - GAAP:** Compares GAAP rent, which straightlines rental rate increases and abatement, on new leases to GAAP rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude properties under repositioning, short-term leases, and space that has been vacant for over one year.

**Same Property Portfolio:** Our Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly-owned by us as of January 1, 2015, and still owned by us as of December 31, 2016. The Company's computation of same property performance may not be comparable to other REITs.

**Stabilized Same Property Portfolio:** Our Stabilized Same Property Portfolio represents the properties included in our Same Property Portfolio, adjusted to exclude space at properties that were in various stages of repositioning or lease-up in connection with a completed repositioning.

**Uncommenced Leases:** Reflects signed leases that have not yet commenced as of the reporting date.
