## **Definitions / Discussion of Non-GAAP Financial Measures:**

**Funds from Operations (FFO):** We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, gains (or losses) from sales of assets incidental to our business, impairment losses of depreciable operating property or assets incidental to our business, real estate related depreciation and amortization (excluding amortization of deferred financing costs and amortization of above/below-market lease intangibles) and after adjustments for unconsolidated joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to FFO is set forth below. "Company Share of FFO" reflects FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

**Core Funds from Operations (Core FFO):** We calculate Core FFO by adjusting FFO to exclude the impact of certain items that we do not consider reflective of our core revenue or expense streams. These adjustments consist of (i) acquisition expenses, (ii) loss on extinguishment of debt, (iii) the amortization of the loss on termination of interest rate swaps and (iv) other amounts as they may occur. Management believes that Core FFO is a useful supplemental measure as it provides a more meaningful and consistent comparison of operating performance and allows investors to

more easily compare the Company's operating results. Because certain of these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs' Core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of FFO to Core FFO is set forth below. "Company Share of Core FFO" reflects Core FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

**Reconciliation of Net Income Attributable to Common Stockholders per Diluted Share Guidance to Company share of Core FFO per Diluted Share Guidance:**

The following is a reconciliation of the Company's 2022 guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Company share of Core FFO per diluted share.

	2022 Estimate	
	Low	High
<b>Net income attributable to common stockholders</b>	\$ 0.84	\$ 0.87
Company share of depreciation and amortization	1.08	1.08
Company share of gains on sale of real estate	(0.05)	(0.05)
<b>Company share of Core FFO</b>	<u>\$ 1.87</u>	<u>\$ 1.90</u>

**Net Operating Income (NOI):** NOI is a non-GAAP measure, which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as rental income from real estate operations less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have a real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of net income to NOI for our Same Property Portfolio, is set forth below.

**Cash NOI:** Cash NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI: (i) fair value lease revenue and (ii) straight-line rent adjustments. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of net income to Cash NOI for our Same Property Portfolio, is set forth below.

**Same Property Portfolio:** Our 2022 Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly owned by us for the period from January 1, 2021 through June 30, 2022, and excludes properties that were acquired or sold during the period from January 1, 2021 through June 30, 2022, and properties acquired prior to January 1, 2021, that were classified as current or future repositioning, redevelopment or lease-up during 2021 or 2022 (unless otherwise noted), which we believe significantly affected the properties' results during the comparative periods. As of June 30, 2022, our 2022 Same Property Portfolio consists of 224 properties aggregating 28,581,635 rentable square feet.

**Properties and Space Under Repositioning:** Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy. We consider a repositioning property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning construction work.

**Net Debt to Enterprise Value:** At June 30, 2022, we had consolidated indebtedness of \$1.7 billion, reflecting a net debt to enterprise value of approximately 13.5%. Our enterprise value is defined as the sum of the liquidation preference of our outstanding preferred stock and preferred units plus the market value of our common stock excluding shares of nonvested restricted stock, plus the aggregate value of common units not owned by us, plus the value of our net debt. Our net debt is defined as our consolidated indebtedness less cash and cash equivalents.

## Disclosures:

Forward-Looking Statements: This supplemental package contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We caution investors that any forward-looking statements presented herein are based on management's beliefs and assumptions and information currently available to management. Such statements are subject to risks, uncertainties and assumptions and may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. These risks and uncertainties include, without limitation: general risks affecting the real estate industry (including, without limitation, the market value of our properties, the inability to enter into or renew leases at favorable rates, dependence on tenants' financial condition, and competition from other developers, owners and operators of real estate); risks associated with the disruption of credit markets or a global economic slowdown; risks associated with the potential loss of key personnel (most importantly, members of senior management); risks associated with our failure to maintain our status as a Real Estate Investment Trust under the Internal Revenue Code of 1986, as amended; possible adverse changes in tax and environmental laws; an epidemic or pandemic (such as the outbreak and worldwide spread of novel coronavirus (COVID-19), and the measures that international, federal, state and local governments, agencies, law enforcement and/or health authorities may implement to address it, which may (as with COVID-19) precipitate or exacerbate one or more of the above-mentioned factors and/or other risks, and significantly disrupt or prevent us from operating our business in the ordinary course for an extended period; litigation, including costs associated with prosecuting or defending pending or threatened claims and any adverse outcomes, and potential liability for uninsured losses and environmental contamination.

For a further discussion of these and other factors that could cause our future results to differ materially from any forward-looking statements, see Item 1A. Risk Factors in our 2021 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission ("SEC") on February 17, 2022. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

(1) We elected the "non-separation practical expedient" in ASC 842, which allows us to avoid separating lease and non-lease rental income. As a result of this election, all rental income earned pursuant to tenant leases, including tenant reimbursements, is reflected as one line, "Rental income," in the consolidated statements of operations. Under the section "Rental Income" on page 36 in the definitions section of this report, we include a presentation of rental revenues, tenant reimbursements and other income for all periods because we believe this information is frequently used by management, investors, securities analysts and other interested parties to evaluate our performance.

(2) Acquisition expenses for all periods presented prior to December 31, 2021 have been reclassified to "Other expenses." Other expenses for the three months ended December 31, 2021 include (i) a \$992 impairment charge related to the right-of-use asset for one of our leased office spaces that we subleased, (ii) \$211 of construction costs related to cancelled projects and (iii) \$59 of acquisition expenses.

(3) In connection with the redemption of our Series A Preferred Stock on August 16, 2021, we recognized a non-cash charge of \$3,349, as a reduction to net income attributable to common stockholders for the original issuance costs related to the Series A Preferred Stock.

(4) Represents the \$718 write-off of unamortized debt issuance costs related to the \$150.0 million unsecured term loan facility that we repaid in May 2022 in advance of its maturity, and the \$159 write-off of a portion of the unamortized debt issuance costs related to our credit agreement that we amended in May 2022, in which one of the creditors under the old agreement did not participate as a lender in the amended credit agreement.

\* "Properties and Space Under Repositioning" are typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy.

(1) For a definition and discussion of non-GAAP financial measures, see the notes and definitions section beginning on page 33 of this report.

(2) Represents the estimated incremental base rent from uncommenced new and renewal leases as if they had commenced as of April 1, 2022.

(3) Represents the estimated incremental NOI from Q2'22 acquisitions as if they had been acquired on April 1, 2022. We have made a number of assumptions in such estimates and there can be no assurance that we would have generated the projected levels of NOI had we actually owned the acquired entities as of April 1, 2022.

(4) Represents the estimated incremental NOI from the properties that were classified as current or future repo/redev, lease-up or stabilized during the three months ended June 30, 2022, assuming that all repo/redevelopment work had been completed and all of the properties were fully stabilized as of April 1, 2022. Includes all properties that are separately listed on pages 27-28 and excludes "Other Repositionings." We have made a number of assumptions in such estimates & there can be no assurance that we would have generated the projected levels of NOI had these properties actually been stabilized as of April 1, 2022.

(5) Excludes unamortized loan discount and debt issuance costs totaling \$13.4 million.

(6) Represents outstanding shares of common stock of the Company, which excludes 282,611 shares of unvested restricted stock.

(7) Represents outstanding common units of the Company's operating partnership, Rexford Industrial Realty, L.P., that are owned by unit holders other than Rexford Industrial Realty, Inc. Includes 659,586 vested LTIP Units and 744,899 vested performance units and excludes 250,006 unvested LTIP Units and 1,096,819 unvested performance units.

**Adjusted Funds from Operations (“AFFO”):** We calculate adjusted funds from operations, or AFFO, by adding to or subtracting from FFO, as defined below, the following items: (i) certain non-cash operating revenues and expenses, (ii) capitalized operating expenditures such as construction payroll, (iii) recurring capital expenditures required to maintain and re-tenant our properties, (iv) capitalized interest costs resulting from the repositioning/redevelopment of certain of our properties and (v) 2nd generation tenant improvements and leasing commissions. Management uses AFFO as a supplemental performance measure because it provides a performance measure that, when compared year over year, captures trends in portfolio operating results. We also believe that, as a widely recognized measure of the performance of REITs, AFFO will be used by investors as a basis to assess our performance in comparison to other REITs. However, because AFFO may exclude certain non-recurring capital expenditures and leasing costs, the utility of AFFO as a measure of our performance is limited. Additionally, other Equity REITs may not calculate AFFO using the method we do. As a result, our AFFO may not be comparable to such other Equity REITs’ AFFO. AFFO should be considered only as a supplement to net income (as computed in accordance with GAAP) as a measure of our performance.

#### **In-Place Annualized Base Rent and Uncommenced Annualized Base Rent:**

- **In-Place Annualized Base Rent (“In-Place ABR”):** Calculated as the monthly contractual base rent (before rent abatements) per the terms of the lease, as of June 30, 2022, multiplied by 12. Includes leases that have commenced as of June 30, 2022 or leases where tenant has taken early possession of space as of June 30, 2022. Excludes billboard and antenna revenue and tenant reimbursements.
- **In-Place ABR per Square Foot:** Calculated by dividing In-Place ABR for the lease by the occupied square feet of the lease, as of June 30, 2022.
- **Combined In-Place and Uncommenced Annualized Base Rent (“In-Place + Uncommenced ABR”):** Calculated by adding (i) In-Place ABR and (ii) ABR Under Uncommenced Leases (see definition below). Does not include adjustments for leases that expired and were not renewed subsequent to June 30, 2022, or adjustments for future known non-renewals.
- **ABR Under Uncommenced Leases:** Calculated by adding the following:
  - (i) ABR under Uncommenced New Leases = first full month of contractual base rents (before rent abatements) to be received under Uncommenced New Leases, multiplied by 12.
  - (ii) Incremental ABR under Uncommenced Renewal Leases = difference between: (a) the first full month of contractual base rents (before rent abatements) to be received under Uncommenced Renewal Leases and (b) the monthly In-Place ABR for the same space as of June 30, 2022, multiplied by 12.
- **In-Place + Uncommenced ABR per Square Foot:** Calculated by dividing (i) In-Place + Uncommenced ABR for the leases by (ii) the square footage under commenced and uncommenced leases (net of renewal space) as of June 30, 2022.
- **Uncommenced New Leases:** Reflects new leases (for vacant space) that have been signed but have not yet commenced as of June 30, 2022.

- **Uncommenced Renewal Leases:** Reflects renewal leases (for space occupied by renewing tenant) that have been signed but have not yet commenced as of June 30, 2022.

**Capital Expenditures, Non-recurring:** Expenditures made with respect to a property for repositioning, redevelopment, major property or unit upgrade or renovation, and further includes capital expenditures for seismic upgrades, roof or parking lot replacements and capital expenditures for deferred maintenance existing at the time such property was acquired.

**Capital Expenditures, Recurring:** Expenditures made with respect to a property for maintenance of such property and replacement of items due to ordinary wear and tear including, but not limited to, expenditures made for maintenance of parking lot, roofing materials, mechanical systems, HVAC systems and other structural systems. Recurring capital expenditures shall not include any of the following: (a) major upgrade or renovation of such property not necessary for proper maintenance or marketability of such property; (b) capital expenditures for seismic upgrades; (c) capital expenditures for deferred maintenance for such property existing at the time such property was acquired; or (d) replacements of either roof or parking lots.

**Capital Expenditures, First Generation:** Capital expenditures for newly acquired space, newly developed or redeveloped space, or change in use.

**Cash NOI:** Cash basis NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI (i) fair value lease revenue and (ii) straight-line rent adjustment. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

**Core Funds from Operations (“Core FFO”):** We calculate Core FFO by adjusting FFO, as defined below, to exclude the impact of certain items that we do not consider reflective of our core revenue or expense streams. Core FFO adjustments consist of (i) acquisition expenses, (ii) loss on extinguishment of debt, (iii) the amortization of the loss on termination of interest rate swaps, (iv) impairments of right of use assets and (v) other amounts as they may occur. Management believes that Core FFO is a useful supplemental measure as it provides a more meaningful and consistent comparison of operating performance and allows investors to more easily compare the Company’s operating results. Because these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs’ core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. “Company Share of Core FFO” reflects Core FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders (which consists of preferred stock dividends, but excludes non-recurring preferred stock redemption charges related to the write-off of original issuance costs which we do not consider reflective of our core revenue or expense streams).

Our actual performance for each covenant is calculated based on the definitions set forth in each loan agreement/indenture.

**EBITDAre and Adjusted EBITDA:** We calculate EBITDAre in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). EBITDAre is calculated as net income (loss) (computed in accordance with GAAP), before interest expense, tax expense, depreciation and amortization, gains (or losses) from sales of depreciable operating property, impairment losses of depreciable property and adjustments to reflect our proportionate share of EBITDAre from our unconsolidated joint venture. We calculate Adjusted EBITDA by adding or subtracting from EBITDAre the following items: (i) non-cash stock based compensation expense, (ii) gain (loss) on extinguishment of debt, (iii) acquisition expenses, (iv) impairments of right of use assets and (v) the pro-forma effects of acquisitions and dispositions. We believe that EBITDAre and Adjusted EBITDA are helpful to investors as a supplemental measure of our operating performance as a real estate company because it is a direct measure of the actual operating results of our industrial properties. We also use these measures in ratios to compare our performance to that of our industry peers. In addition, we believe EBITDAre and Adjusted EBITDA are frequently used by securities analysts, investors and other interested parties in the evaluation of Equity REITs. However, because EBITDAre and Adjusted EBITDA are calculated before recurring cash charges including interest expense and income taxes, and are not adjusted for capital expenditures or other recurring cash requirements of our business, their utility as a measure of our liquidity is limited. Accordingly, EBITDAre and Adjusted EBITDA should not be considered alternatives to cash flow from operating

activities (as computed in accordance with GAAP) as a measure of our liquidity. EBITDAre and Adjusted EBITDA should not be considered as alternatives to net income or loss as an indicator of our operating performance. Other Equity REITs may calculate EBITDAre and Adjusted EBITDA differently than we do; accordingly, our EBITDAre and Adjusted EBITDA may not be comparable to such other Equity REITs' EBITDAre and Adjusted EBITDA. EBITDAre and Adjusted EBITDA should be considered only as supplements to net income (as computed in accordance with GAAP) as a measure of our performance.

**NAREIT Defined Funds from Operations ("FFO"):** We calculate FFO in accordance with the standards established by NAREIT. FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) on sale of real estate assets, gains (or losses) on sale of assets incidental to our business, impairment losses of depreciable operating property or assets incidental to our business, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated joint ventures. Management uses FFO as a

supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions or assets incidental to our business, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate and other assets incidental to our business, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity, and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. "Company Share of FFO" reflects FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders (which consists of preferred stock dividends and any preferred stock redemption charges related to the write-off of original issuance costs).

**Net Operating Income ("NOI"):** NOI is a non-GAAP measure which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as total revenue from real estate operations including i) rental income, ii) tenant reimbursements, and iii) other income less property expenses. We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense, general and administrative expenses, interest expense, gains (or losses) on sale of real estate and other non-operating items, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio.

**Proforma NOI:** Proforma NOI is calculated by adding to NOI the following adjustments: (i) the estimated impact on NOI of uncommenced leases as if they had commenced at the beginning of the reportable period, (ii) the estimated impact on NOI of current period acquisitions as if they had been acquired at the beginning of the reportable period, (iii) the actual NOI of properties sold during the current period and (iv) the estimated incremental NOI from properties that were classified as

repositioning/lease-up properties as of the end of the reporting period, assuming that all repositioning work had been completed and the properties/space were fully stabilized as of the beginning of the reportable period. These estimates do not purport to be indicative of what operating results would have been had the transactions actually occurred at the beginning of the reportable period and may not be indicative of future operating results.

#### Definitions Related to Properties and Space Under Repositioning/Redevelopment:

- **Properties and Space Under Repositioning:** Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy.
- **Properties Under Redevelopment:** Typically defined as a properties where we plan to fully or partially demolish an existing building(s) due to building obsolescence and/or a property with excess or vacant land where we plan to construct a ground-up building.
- **Estimated Construction Period:** The "Start" of the Estimated Construction Period is our current estimate of the period in which we will start physical construction on a property. Prior to Q4-2020, we defined the "Start" as the period in which we began activities to get a property ready for its intended use, which included pre-construction activities, including securing entitlements or permits, design, site work, and other necessary activities preceding construction. The Target Completion of the Estimated Construction Period is our current estimate of the period in which we will have substantially completed a project and the project is made available for occupancy. We expect to update our timing estimates on a quarterly basis.
- **Purchase Price:** Represents the contractual purchase price of the property plus closing costs.
- **Projected Repositioning/Redevelopment Costs:** Represents the estimated costs to be incurred to complete construction and lease-up each repositioning/redevelopment project. Estimated costs include (i) nonrecurring capital expenditures, (ii) estimated tenant improvement allowances/costs and (iii) estimated leasing commissions. We expect to update our estimates upon completion of the project, or sooner if there are any significant changes to expected costs from quarter to quarter. Excludes capitalized costs including capitalized interest, property taxes, insurance and compensation.
- **Projected Total Investment:** Includes the sum of the Purchase Price and Projected Repositioning/Redevelopment Costs.
- **Cumulative Investment to Date:** Includes the Purchase Price and nonrecurring capital expenditures, tenant improvement costs and leasing commission costs incurred as of the reporting date.
- **Estimated Annual Stabilized Cash NOI:** Represents management's estimate of each project's annual Cash NOI once the property has reached stabilization and initial rental concessions, if any, have elapsed. Actual results may vary materially from our estimates.
- **Actual Quarterly NOI:** Represents the actual cash NOI (a non-GAAP measure defined on page 33) for the repositioning/redevelopment property for the entire reported quarter or from the date of acquisition if such property was acquired during the current reported quarter.

## Notes and Definitions.

- **Estimated Unlevered Stabilized Yield:** Calculated by dividing each project's Estimated Annual Stabilized Cash NOI by its Projected Total Investment.
- **Stabilization Date - Properties and Space Under Repositioning/Redevelopment:** We consider a repositioning/redevelopment property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning/redevelopment construction work.

**Rental Income:** See below for a breakdown of consolidated rental income for the last five trailing quarters. We believe this information is frequently used by management, investors, securities analysts and other interested parties to evaluate the our performance.

**Rent Change - Cash:** Compares the first month cash rent excluding any abatement on new/renewal leases to the last month rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude: (i) space that has never been occupied under our ownership, (ii) repositioned/redeveloped space, (iii) space that has been vacant for over one year or (iv) lease terms shorter than six months.

**Rent Change - GAAP:** Compares GAAP rent, which straightlines rental rate increases and abatements, on new/renewal leases to GAAP rent for the most recent expiring lease. Data included for comparable leases only. Comparable leases generally exclude: (i) space that has never been occupied under our ownership, (ii) repositioned/redeveloped space, (iii) space that has been vacant for over one year or (iv) lease terms shorter than six months.
